**RJR A9-RJR-B 3-in-1 Wireless Charging Station**

**Launch Date:** August 29, 2022

**Price:** \$28

## Introduction

The RJR A9-RJR-B 3-in-1 Wireless Charging Station is a stylish and efficient way to charge three Apple products at the same time. This station can charge your iPhone, Apple Watch, and AirPods all at the same time to make charging easier. It looks great in any modern home or office thanks to its sleek black finish and small size. It makes sure that your gadgets are ready to use quickly by charging them at 15W. There are also improved safety features on the RJR A9-RJR-B, such as overcharge security and a non-slip base that keeps everything in place while it charges. This station can be used for many things and is great for people who want to clear up their space while keeping all of their important devices charged and close at hand.

## Specifications

- **Brand:** RJR
- **Product Dimensions:** 6.1 x 3.74 x 4.72 inches
- **Item Weight:** 10.5 ounces
- **Item Model Number:** A9-RJR-B
- **Connectivity Technologies:** USB
- **Connector Type:** USB Type-C
- **Wattage:** 15W
- **Color:** Black

- **Mounting Type:** Tabletop Mount
- **Special Features:** 3-in-1 wireless charging, 3-angle view for enhanced convenience
- **Other Display Features:** CE
- **Manufacturer:** xianyouxianlichengpaibafushishanghang

## Package Includes

- 1 x RJR A9-RJR-B 3-in-1 Wireless Charging Station
- 1 x Type-C Power Cable
- 1 x 18W Fast Charging Adapter
- 1 x User Manual

## Features

1. **3-in-1 Charging:** The RJR A9-RJR-B 3-in-1 Wireless Charging Station can charge an iPhone, an Apple Watch, and AirPods all at the same time. This gets rid of the need for extra charges and clears up the space. It lets users turn on all three devices at once, which makes it a great way to make sure that all of your Apple devices are always ready to go with little work.
2. **Fast Charging:** This charging station can give your iPhone 10W fast charging, so your devices will be charged quickly and effectively. There is no wait time for your phone to charge, whether you have an iPhone 12 or the newest iPhone 16 series. This means you can get to work right away.
3. **Compact and Sleek Design:** The charging station is thin and takes up little room, so it can be used on any desk, bed, or workplace. It looks modern and elegant, and it goes well with any style of decor. Its small size means it won't take up any extra room, keeping the area clean and organized.

# NEW DESIGN

## for Apple Watch Charger

Station self-adjusts the charging position of any sized watch, with or without a case (38-49mm) for an aligned and powerful charge.

### With Apple Watch Ultra(49mm)

Automatically move up to match the 49mm watch.

### With Apple Watch SE(38mm)

Automatically move down to match the 38mm watch.

4. **Features for Safety:** The RJR A9-RJR-B has built-in safety features that keep your devices safe from overcharging, burning, and short circuits. This makes people feel safe while their devices are being charged, which is very helpful. These safety measures make sure that charging is always safe and reliable.
5. **Displays:** The RJR A9-RJR-B has a total of nine charging pads, and each one has its own LED display. These lights show the charging state of each device in real-time, making it easy to see if it is charging or fully charged. The LED lights help you stay informed and organized by giving you something to look at.
6. **Slip-resistant Base:** The RJR A9-RJR-B's slip-resistant base keeps your devices in place while they charge. The non-slip design keeps them from moving around, even if you leave your devices charging overnight or in a busy office. This keeps your charging station clean and your devices safe from damage.
7. **Compatible with All Apple Products:** This wireless charging station works with many Apple products, such as iPhones, Apple Watches, and AirPods. It works with iPhones from the 6s to the newest iPhone 16 series, Apple Watch Series 1 through 9, and AirPods 1 through 3. Because it works with all Apple products, you can use the station with all of them, which is very convenient.

## Universal Compatibility

### For iPhone

### For Apple Watch(38mm-49mm)

### For AirPods

8. **USB Type-C driven:** The RJR A9-RJR-B is driven by a USB Type-C port, which delivers power efficiently so that it charges faster. USB Type-C is known for being fast and reliable, which makes charging easier by giving your devices stable and quick power flow.
9. **The latest improvement for wirelessly charging your iPhone:** the charging station's new form gives you a better viewing angle of up to 70°, which is 50° more than other night charging stations. This makes it easier to see what you're looking at while your iPhone is charging, making it more comfortable and easy to use.

10. **Smart and Sturdy Attachment for Apple Watch:** The Apple Watch charger has a special design inside that changes the charging position of the watch automatically, making it work with a range of watch sizes (38mm to 49mm). This system that adjusts itself helps your watch stay cool while it's charging, which can make the charge last longer and work better.
11. **Heavy Bands Can Fit in the Silicone Watch Holder:** The charging station has a silicone watch holder that can fit heavy metal bands. So, you won't have to take off the metal band of the watch before charging. No matter how light or heavy your watch band is, the holder will keep it in place so it doesn't slip off, even while it's charging.
12. **Universal Compatibility (Apple Devices):** The charging station works with several Apple products, such as the Apple iWatch Ultra, iPhone models from the iPhone 6s to the iPhone 16, and all versions of AirPods. Because it works with so many devices, it's the best way for Apple users to charge multiple devices at once.
13. **What You Get:** The RJR A9-RJR-B 3-in-1 charging station, a 15W adapter, a Type-C wire, and a user guide are all in the box. It also comes with a guarantee that lasts for two years, so your buy is safe. A charging station is the best way to keep your desk or bed clean and free of cable mess.
14. **Desktop Partner:** The RJR A9-RJR-B 3-in-1 charging station is a great addition to your desk or bed because it is easy to use. It lets you keep your phone, watch, and AirPods fully charged, so you never miss calls or updates while you work or rest.
15. **Better Design and Automatic Alignment for iWatch:** The RJR A9-RJR-B has a better design that lines the charging center of your iWatch automatically, which makes it easier to charge your device. The alignment is smooth, so you never have to worry about it being out of place, even if you have a watch case that is 38mm to 49mm in size.

## Usage

1. **Place the Charging Station:** Position the RJR A9-RJR-B on a flat surface, such as a desk or nightstand.
2. **Connect to Power Source:** Plug the Type-C cable into the charging station and connect the other end to the 18W adapter. Then, plug the adapter into a power outlet.
3. **Place Devices:** Align your iPhone, Apple Watch, and AirPods with their respective charging areas on the station. Ensure your AirPods have a wireless charging case.
4. **Charging Process:** Once the devices are correctly placed, the LED indicators will light up to show that charging has begun. The devices will charge simultaneously, with each device receiving the appropriate power.
5. **Monitor Charging Status:** The LED indicators will display the status of each device, turning off once fully charged.

## Care and Maintenance

- **Clean Regularly:** Use a soft, dry cloth to clean the surface of the charging station. Avoid abrasive cleaners or chemicals that could damage the surface.
- **Ensure Proper Ventilation:** Ensure that the charging station is not obstructed by any objects that may block airflow, as this could cause overheating.
- **Keep Charging Pads Dry:** Keep the charging pads free from moisture to prevent any potential short circuits or damage to your devices.
- **Avoid Overloading:** Do not charge devices that exceed the station's rated charging capacity, as this could damage the charging station or your devices.
- **Store Safely:** When not in use, store the charging station in a cool, dry place. Avoid exposure to direct sunlight or extreme temperatures.

## Troubleshooting

### Device Not Charging:

- Ensure that the power source is connected and that the LED indicators on the charging station are lit up.
- Check that the devices are properly aligned with the charging pads.
- Ensure your devices support wireless charging and that they are within the charging range.

### Slow Charging Speed:

- Confirm that you are using the provided 18W fast charger adapter.
- If the iPhone is in a case, remove it to avoid interference with the wireless charging process.
- Make sure there are no foreign objects on the charging pads that might interfere with the charging process.

### Overheating:

- Ensure that the charging station is in a well-ventilated area.
- Check the ambient temperature—extreme temperatures can affect charging performance.
- Avoid stacking multiple devices on the charging station at once if you experience overheating.

**LED Indicator Not Lighting:**

- Verify that the charging station is properly connected to the power source and turned on.
- Try using a different power outlet or USB cable to ensure there’s no issue with the power supply.

**Devices Not Charging Simultaneously:**

- Ensure that each device is correctly placed on its designated charging pad.
- Remove any unnecessary cases or obstructions that might interfere with the wireless charging process.

**Pros and Cons**

Pros	Cons
Fast charging capability	Limited to Apple devices
Sleek, modern design	Requires specific adapter
Multiple device support	May not work with thick cases

**Warranty**

The RJR A9-RJR-B comes with a standard warranty covering manufacturing defects for one year from the date of purchase. Always retain your receipt for warranty claims.

**FAQs**

What devices are compatible with the RJR A9-RJR-B 3-in-1 Wireless Charging Station?

The RJR A9-RJR-B 3-in-1 Wireless Charging Station is compatible with iPhones, Apple Watches, and AirPods, including the latest models like iPhone 16 series, Apple Watch Series 8, and AirPods Pro.

What is the charging speed for AirPods on the RJR A9-RJR-B?

The RJR A9-RJR-B charges AirPods at a standard wireless charging speed, ensuring they are powered up quickly and ready for use.

What’s included in the box with the RJR A9-RJR-B charging station?

The package includes the RJR A9-RJR-B 3-in-1 Charging Station, a 15W adapter, and a Type-C cable, providing everything you need to start charging.

What's included in the box with the RJR A9-RJR-B charging station?

The LED indicator on the RJR A9-RJR-B shows the charging status of your devices. It turns on to indicate that charging is in progress and turns off once the device is fully charged.

What type of power connector does the RJR A9-RJR-B use?

The RJR A9-RJR-B uses a USB Type-C connection for efficient power delivery to charge your devices quickly.

How do I keep my RJR A9-RJR-B charging station clean?

To maintain your RJR A9-RJR-B, simply wipe it with a soft, dry cloth to remove dust and dirt. Avoid using abrasive materials to prevent scratches.

Can I use the RJR A9-RJR-B for charging non-Apple devices?

The RJR A9-RJR-B is optimized for Apple devices, but it can also charge other Qi-compatible devices, although fast charging may not be supported for non-Apple devices.

How long does it take to fully charge an iPhone with the RJR A9-RJR-B?

The charging speed depends on the iPhone model, but with the 15W fast charging feature, most iPhones will charge to 50% in about 30 minutes when placed on the RJR A9-RJR-B.

How do I know if my device is properly aligned on the RJR A9-RJR-B charging station?

The RJR A9-RJR-B has a smart alignment system that automatically adjusts the device's position, ensuring optimal charging every time, so you don't have to worry about precise placement.
