ROBINAIR 34988NI A-C Capacities Database

A/C Capacities Database Activation and Use Instructions

34988NI, 34788NI(H), 34288NI, AC1234-4 Database Activation

WARNING

ALLOW ONLY QUALIFIED PERSONNEL TO OPERATE THE MACHINE.

Follow all Safety Precautions contained in the complete manual.

To Activate Database using included PAK code:

1. Ensure that there is an active Wi-Fi Connection.
2. Ensure that the machine is registered.
3. Navigate to the System Information Page.
 - From the main status screen press “Next”
 - Select “Menu”
 - Page down to “System Information”
4. Press F3 “PAK” button.
 - Machine will check for valid registration. This can take several minutes.
5. Press F2 and enter PAK code.
6. Enter 20 digit PAK code and Press F3 to activate code.
7. Once activated, screen will return to the list of activated codes.

To Utilize activated Database by selecting vehicle:

1. Press “Next” to navigate to the second page.
2. Press F2 to access the Database.
3. Follow prompts to input Year/Make/Model of the vehicle.

To Utilize activated Database by Reading VIN from Vehicle using VCI:

1. Start desired service (Automatic, Recover, Charge or Vacuum).
2. When prompted to “Enter Service Data,” Press F2.
3. Follow prompts to read VIN from vehicle using VCI.
4. VIN should prompt machine to select correct vehicle and information from Refrigerant Database.
