Robo Alive 25235B-B-S001 Battery-Powered Slithering Snake

Launch Date: 2023

Price: \$24.95

Introduction

Robo Alive 25235B-B-S001 Battery-Powered Slithering Snake is a toy that is very lifelike and is made to move like a real snake. This toy needs two AA batteries, which are not included, to work. It can move along surfaces and flick its tongue like a real snake. It is fun for kids ages 3 and up to play with because it has real glowing eyes, a rubber body, and a design that lets it bend. The Robo Alive 25235B-B-S001 is fun and useful at the same time. It helps kids learn more about reptiles and improves their motor skills. This toy will keep kids entertained for hours and is great for kids who like animals and nature. It also encourages connection, imagination, and creative play.

Specifications

- **Batteries Required:** 2 AAA batteries (not included)
- **Play Activity Location:** Tabletop or floor
- **Special Features:** Super-fast movement, light-up body, lifelike design with moving eyeballs
- **Recommended Age:** 36 months and up
- **Occasion:** Great for Christmas or as a gift for animal lovers

- **Assembly Required:** No

Package Includes

- 1 x Robo Alive 25235B-B-S001 Battery-Powered Slithering Snake
- 1 x Instruction Manual

Features

1. **Moves Like a Real Snake:** The Robo Alive 25235B-B-S001 moves like a real snake by slithering across surfaces using advanced robots. The way it moves is smooth, like how real snakes move along the ground.
2. **Tongue Flicking Effect:** The Robo Alive 25235B-B-S001 snake moves and flicks its tongue in a way that looks like a real snake. This result makes the toy look even more real, which makes it even more fun for kids.
3. **Lifelike Design:** The Robo Alive 25235B-B-S001 looks incredibly real thanks to its bright eyes and rubber body. Realistic movement is possible because the design is flexible, and the snake looks like a real lizard overall.
4. **Fun with Batteries:** The snake runs on two AA batteries (not included), which give you hours of wriggling fun. This feature makes sure that kids can play with the toy for a long time without having to charge it often.
5. **Educational Play:** This toy is great for kids who like snakes and other reptiles because it lets them see how snakes move and learn about reptiles. The Robo Alive 25235B-B-S001 makes people curious and helps them learn about nature.
6. The Robo Alive 25235B-B-S001 moves very quickly, which makes it fun to watch as it slithers across the floor. The fast speed makes it more fun, especially when kids try to catch or chase it.
7. **Interactive Play:** The realistic look, movement, and tongue-flicking action make the toy fun for kids to play with. They can watch it “hunt” for food and learn about how animals act when they are out in the wild.
8. **Lifelike Eyes:** The eyes of the snake move like real snakes’ eyes do, making the experience more real. This makes the toy feel more like a live animal by adding another level of realism.
9. **Perfect for Kids of All Ages:** The Robo Alive 25235B-B-S001 snake is fun for kids ages 3 and up because it lets both boys and girls play together. Its form and features make it a fun toy for kids and adults of all ages, and they help kids use their imaginations and be creative.
10. **Package Includes:** The package comes with one Robo Alive Stone-Grey Snake and a set of instructions to help you set it up and use it. It doesn’t come with batteries, so make sure you have two AA batteries handy.
11. **Family-friendly:** The Robo Alive 25235B-B-S001 is a safe toy for kids to play with because it is made of long-lasting materials and was made with safety in mind. Parents can rest easy knowing that the products are safe.
12. **Long-Lasting and Durable:** The snake is made of high-quality plastic, so it will last even if you play with it a lot. Because it’s well-made, it can last through many play sessions.
13. **Interactive without a Remote:** The Robo Alive 25235B-B-S001 doesn’t need a remote control, so you can connect with it more directly. The snake will start moving and flicking its tongue as soon as the kids put it on a flat surface.
14. As the snake moves quickly, kids will enjoy running after it or leading it around things that are in its way. This gets kids to play outside and helps them get better at using their bodies.
15. **Ideal for Themed Play:** The Robo Alive 25235B-B-S001 is a great addition to themed play, whether it’s part of a bigger animal play set or a separate toy. It works great for any adventure game where kids want to include a wild, slithering monster.

Usage

1. **Insert Batteries:** Open the battery compartment and insert 2 AAA batteries (not included).
2. **Turn On the Toy:** Slide the power switch to “ON” to activate the toy. It will begin slithering across the floor and flicking its tongue.
3. **Interactive Play:** Watch as the snake moves across the floor, and interact with it by moving it to different areas. The light-up body and moving eyeballs add to the excitement.
4. **Turn Off:** After play, turn the snake off to conserve battery life.

Care and Maintenance

- **Battery Replacement:** When the snake’s movement slows or stops, replace the 2 AAA batteries with fresh ones. Always ensure batteries are properly installed.
- **Cleaning:** Wipe the snake’s body with a damp cloth to remove dust and dirt. Do not submerge the toy in water to avoid damaging the electronics.
- **Storage:** Store the toy in a dry place, away from direct sunlight, to preserve its functionality and appearance.
- **Inspect for Damage:** Periodically check the toy for any signs of damage, especially the moving parts and light-up features. If the toy stops functioning, check the battery connections and replace batteries if needed.

Troubleshooting

1. **The Snake Won’t Move:**
 - Ensure the batteries are inserted correctly and are not drained. Replace with new batteries if needed.
3. **Movement Is Slow or Jerky:**
 - Check if the batteries are low or incorrectly installed. Replace the batteries with fresh ones and ensure they are properly connected.
4. **The Snake’s Lights or Eyeballs Aren’t Working:**
 - Verify that the batteries are working. If they are not, replace them with new ones.
5. **The Snake Stops Moving Suddenly:**
 - This could be due to battery issues. Replace the batteries and ensure the battery compartment is securely closed.
6. **Toy Is Not Responding to Movement:**
 - Ensure the surface is smooth and even. The toy works best on hard floors like wood, tile, or smooth carpets. If used on carpet, ensure the pile is not too thick.

Pros and Cons

Pros	Cons
Realistic slithering motion	Requires batteries (not included)
Engaging for children	May be too advanced for younger kids
Durable plastic construction	Limited outdoor use due to sensors

Warranty

The Robo Alive Slithering Snake comes with a standard manufacturer warranty covering defects in materials and workmanship for a period of six months from the date of purchase.

FAQs

What is the Robo Alive 25235B-B-S001?

The Robo Alive 25235B-B-S001 is a battery-powered, slithering snake toy that mimics the movement of a real snake with lifelike flicking tongue and glowing eyes.

How does the Robo Alive 25235B-B-S001 move?

The Robo Alive 25235B-B-S001 moves by slithering across surfaces, mimicking a real snake's movement. It also flicks its tongue while it moves, adding to its realistic behavior.

What age group is the Robo Alive 25235B-B-S001 suitable for?

The Robo Alive 25235B-B-S001 is recommended for children aged 3 years and up due to its interactive and safe design.

What makes the Robo Alive 25235B-B-S001 realistic?

The Robo Alive 25235B-B-S001 features lifelike glowing eyes, a flexible rubber body, and a tongue-flicking effect, making it look and behave like a real snake.

What type of material is used in the Robo Alive 25235B-B-S001?

The Robo Alive 25235B-B-S001 is made from high-quality plastic with a rubber body, making it durable and safe for children to play with.

What color is the Robo Alive 25235B-B-S001 snake?

The Robo Alive 25235B-B-S001 is available in a realistic stone-grey color, designed to resemble the natural look of a real snake.

How does the Robo Alive 25235B-B-S001 enhance educational play?

The Robo Alive 25235B-B-S001 helps children learn about snakes and reptiles through its lifelike movement and sounds, fostering curiosity about nature and animals.

How fast does the Robo Alive 25235B-B-S001 slither?

The Robo Alive 25235B-B-S001 moves quickly, allowing kids to chase after it or guide it around obstacles, enhancing interactive play.
