Disposal information

The crossed-out wheelie-bin symbol means that you must not dispose of this product together with unsorted household waste. As electrical devices can contain harmful substances which may cause environmental damage or harm to your health if not disposed of correctly, please dispose of these products separately. As the end user, you are required by law to dispose of used electrical equipment at an official recycling point. For information about local recycling points, contact your local authority, civic amenity site or the business where you purchased this product. By disposing of electrical products at an official recycling point, you are doing your bit to ensure equipment is recycled correctly and professionally, and our environment is protected.

When purchasing a new product, the retailer will let you hand in old products and dispose of them free of charge provided the product you are handing in is of a similar type and has the same functions as the product you are purchasing. You can hand in small used electrical and electronic equipment (measuring no longer than 25 cm on

any one side) for free and with no obligation to purchase a similar product at electrical and electronic retail outlets with sales areas larger than 400m² or at nearby recycling points designated by the retail outlet.

Wherever possible, remove any batteries before disposing of the device.

Under law, as a user you face the risk of penalties if you dispose of devices and batteries illegally.
