7. USB
8. MICRO SD

SETUP

REMOTE CONTROL

Do more on your TV with your voice

Search for shows, get recommendations, even control your TV — faster — with your voice. Ask Google for a little help on your big screen.

Important notice

The batteries of your remote control are 2 x AAA type, 1.5V DC. Do not mix different types of batteries or new and old batteries. Do not use rechargeable batteries. In order to avoid any risk of explosion, observe polarities indicated inside the battery compartment. Replace only with the type of batteries specified above. Do not subject to excess heat such as SUN and Fire, do not recharge them. If you are not using the remote control for a long period of time, remove the batteries. Please respect the environment and prevailing regulations! Batteries must be collected separately from other refuse! Before you dispose of batteries, ask your dealer whether they are subject to special recycling and if he will accept them for disposal.
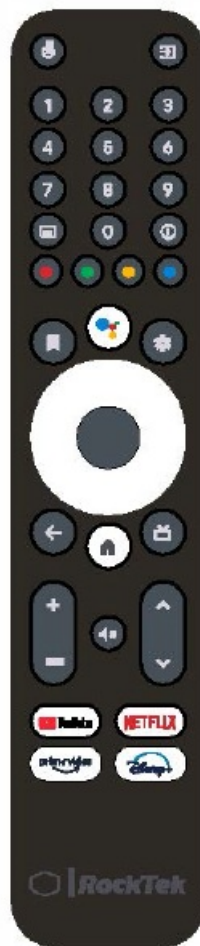

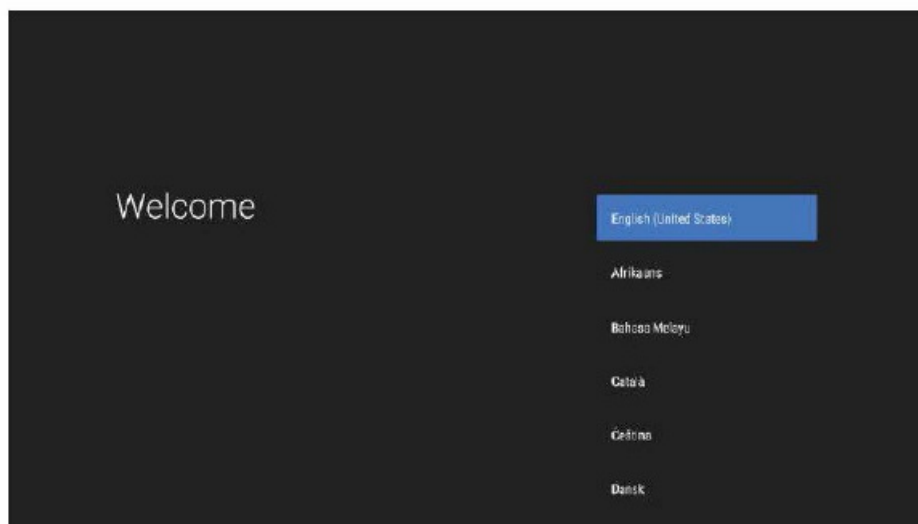

Pairing guide

Long press Back+Home button at the same time until the red light flashes quickly, then release that means RCU enter the pairing mode. Waiting for few seconds and stop pressing any buttons, until it pop up the message of pairing successfully.
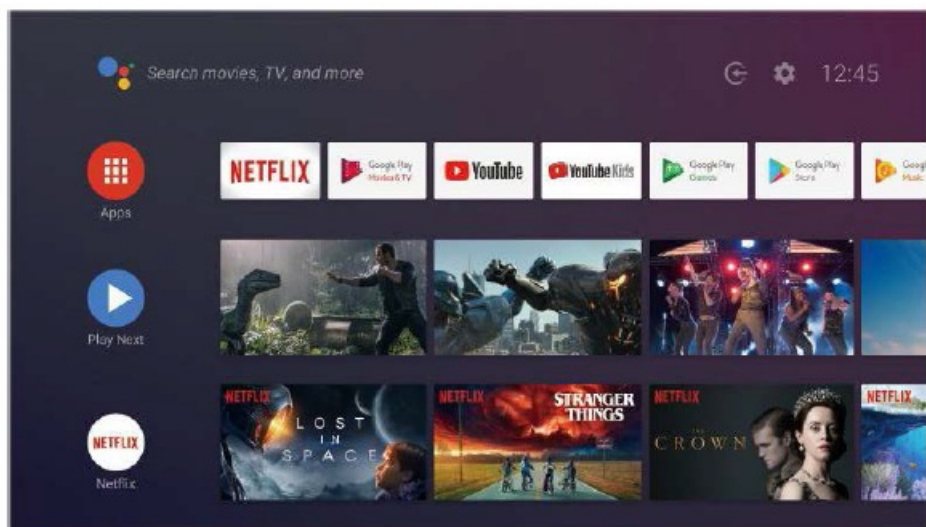

ANDROID TV

Complete the on-scrNn setup

Android TV bring, a work of content to your burliest screen.
Ask Google to search for the latest blockbuster, 1tream shows, or open multiplayer games. Have it dim the lghts by comectir,g smart home devices. Manage tasks and see you,: calendar. Or ask itque5″1ions and see the answers on your TV. Press the GooAssistant button on your remote ta tct<toGoagle.

Power	
DC Input Range	12V 1A
Power Consumption	Maximum 12 W

SAFETY INFORMATION

FCC WARNING

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception,

which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

— Reorient or relocate the receiving antenna.
— Increase the separation between the equipment and receiver.
— Connect the equipment into an outlet on a circuit different
from that to which the receiver is connected.
— Consult the dealer or an experienced radio/TV technician for help.

IC Caution:

This device complies with Industry Canada s licence-exempt RSSs. Operation is subject to the following two conditions:

1. This device may not cause interference; and

2. This device must accept any interference, including interference that may cause undesired operation of the device.

To maintain compliance with RF exposure guidelines, this equipment should be installed and operated with a minimum distance of 20cm between the radiator and your body.
