Rocbolt Security Lock Register & Access
Locking Tip Adjustment

Use a small flathead screwdriver or similar tool to switch the knob. Adjust the locking tip according to the lock slot specification of your device.

⚠ The Knob can only be switched when the lock is unlock.

Lock

①

Wrap your cable around an immovable object, by crossing the lock body, through the loop, on the opposite end of the cable.
②

You must adjust the locking tip before inserting the lock into your device.

Adjust the locking tip according to the lock slot specification of your device.

Press the release button and insert the locking tip into the slot.

Push the button to lock the device.

Unlock

Insert the key,
turn the key 90° clockwise to unlock.

Press the release button to
release the lock.

Removable Rubber Grommet

For computers that have a tighter security lock it it is necessary to remove the grommet on the cable lock.

Removable Grommet
