#### **HARDWARE INCLUDED**

#### **TOOLS REQUIRED**

# **INSIDE OR OUTSIDE APPLICATION**

\*\*NOTE: ALL SHADES MAY BE PRE-PROGRAMMED TO SENSORS, REMOTES, AND/OR WALL SWITCHES

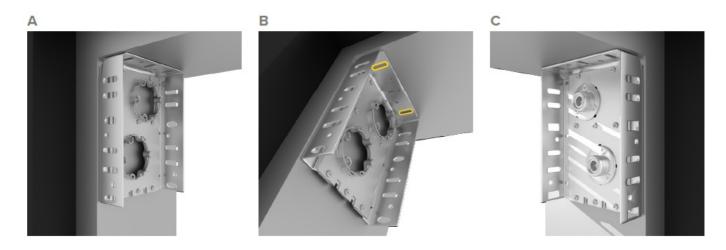

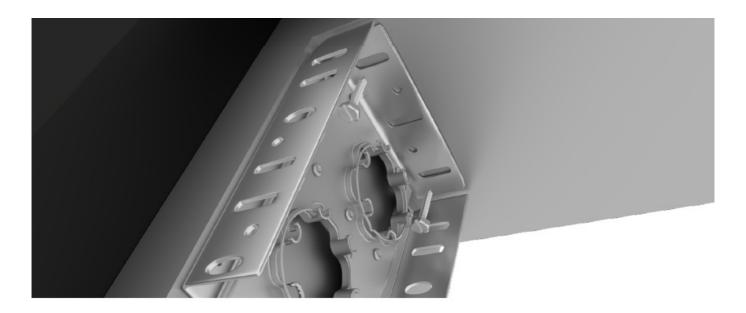

# **MOUNTING LOCATION**

Place your first bracket in its mounting location and mark the screw holes. Place your second bracket in its mounting location and repeat the process.

# **SCREW INSTALLATION**

Next, pre-drill your screw holes using a 1/8" drill bit. Install the brackets with the provided screws using the 1/4" hex head driver.

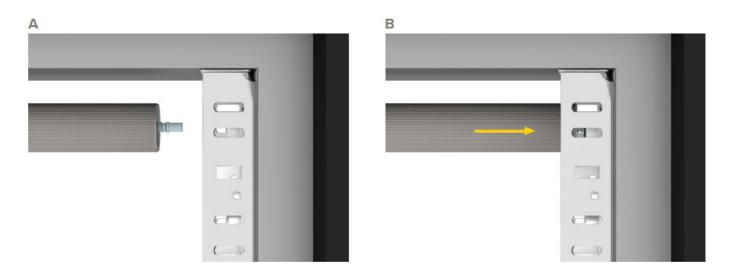

#### **ALIGNMENT**

Check to make sure your brackets are level and aligned.

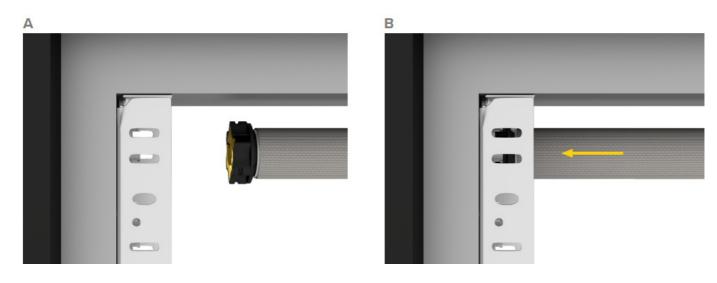

# **TOP SHADE PIN END INSTALLATION**

Swivel ball bearing to align with idler shaft for easy installation. Press idler shaft all the way to the bracket.

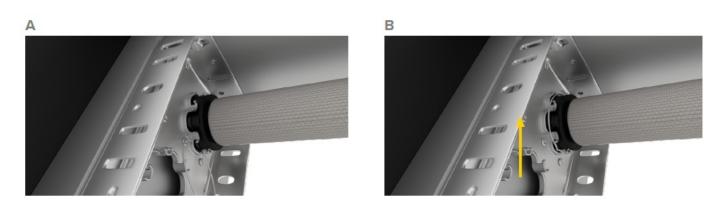

# TOP MOTOR END INSTALLATION

Remove locking ring. Lineup to motor bracket. Push motor into motor bracket.

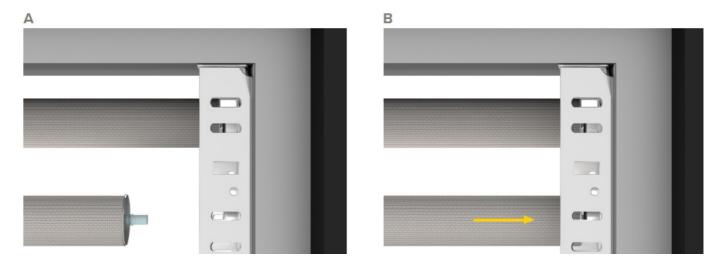

# TOP LOCK RING INSTALLATION

Add locking ring to motor bracket. Check motor is secured correctly.

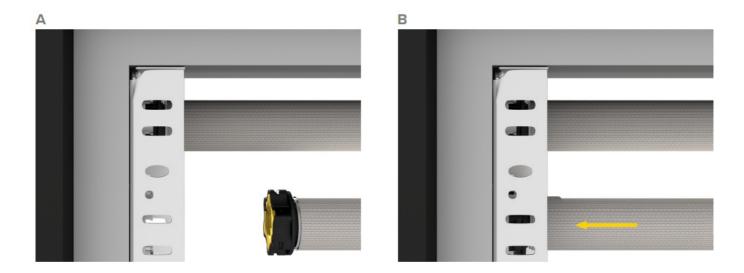

# **BOTTOM SHADE PIN END INSTALLATION**

Swivel ball bearing to align with idler shaft for easy installation. Press idler shaft all the way to the bracket.

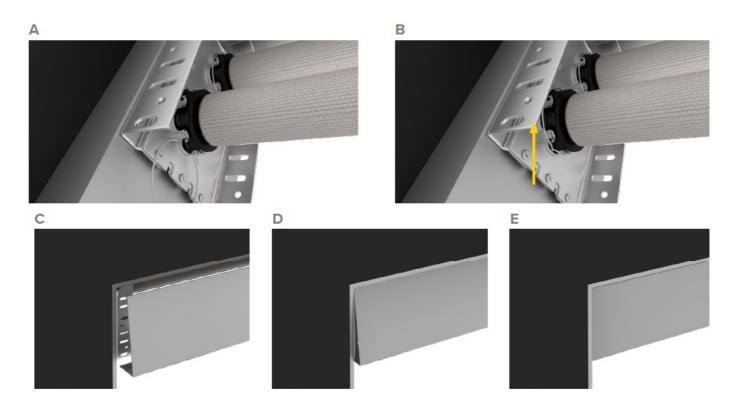

# **BOTTOM MOTOR END INSTALLATION**

Remove locking ring. Lineup to motor bracket. Push motor into motor bracket.

# **BOTTOM LOCK RING & FASCIA INSTALLATION**

Add locking ring to motor bracket. Check motor is secured correctly. Install bottom fascia.

# **PLUG IN MOTOR**

- Run motor power cord to nearest power outlet.
- Install wire tie pads and secure with zip ties to hold wire down.
- The path of the wire should be parallel with mullions and/or drop ceiling tiles ensuring the cable is neatly organized.
- Any modifications to the power cable should be done by a certified electrician to meet your city/state code requirements.

#### **ADJUSTING LIMITS (IF NECESSARY)**

See programming instructions based on the motor used for your application.

# **SHADE ADJUSTING (IF NECESSARY)**

- Roll shade up and down to confirm hembar is level and material rolls up straight on center tube.
- If the hembar is not level, lower shade until you see the metal tube.
- Add layers of masking tape to the metal tube to the end that is too low until hembar is straight.
- If the material tracks to one side, lower shade until you see the metal tube.
- Add layers of masking tape to the metal tube to the end that is opposite the direction of tracking, until shade rolls up straight.

# **FAQ**

#### Q: How do I adjust the limits of the shade?

A: See programming instructions based on the motor used for your application to adjust the limits of the shade.

# Q: What tools are required for installation?

A: The tools required for installation are a 3/8 Hex Head Phillips Head, a 1/8 Drill Bit, and a Drill.
