## Specifications

- Product Name: Wired Mode/Indicator Lights Keyboard
- Model Number: 166-87201-01
- Interface: TYPE-C HUB
- Compatibility: Windows, Mac, and Bluetooth-enabled devices

## Product Usage Instructions

### Wired Mode:

To use the keyboard in wired mode:

1. Connect the USB cable to your device.
2. Use the knob to select the USB mode.

### Bluetooth Pairing

To pair the keyboard with a Bluetooth device:

1. Short press the knob to enter mode switching options.
2. Turn the knob to select BT1 or 2.4G mode.
3. For BT1 pairing:
  1. Long press the knob to enter BT1 pairing mode.
  2. On your computer or phone, search for “RK-M75” and connect.
  3. Repeat for up to 3 Bluetooth devices, switching between them using the knob.
4. For 2.4G pairing:
  1. Long press the knob to enter 2.4G pairing mode.
  2. Plug in the 2.4G dongle for successful pairing.

### Backlight Control:

To control backlight settings:

- Rotate the knob to choose between BT1, 2.4G, or other modes.
- Adjust backlight brightness and speed as needed.

## Multimedia Keys:

Use multimedia keys for various functions based on your system (Windows or Mac)

- Android: 5.0 Lollipop or Later

### wired/2.4GHz Mode

- A computer with an Available USB port
- PC: Windows 7 or Later
- Mac: macOS X 10.6 Snow Leopard or Later

## **FCC COMPLIANCE STATEMENT (USA only)**

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference,
2. This device must accept any interference received, including interference that may cause undesired operation.

### **Note:**

- This equipment has been tested and found to comply with the limits for a Class B digital device, under Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used according to the instructions, may cause harmful interference to radio communications.
- However, there is no guarantee that interference will not occur in a particular installation.
- If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

## **FCC COMPLIANCE STATEMENT**

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected. Consult the dealer or an experienced radio/TV technician for help.

**Warning:** Changes or modifications to this unit not expressly approved by the part responsible for compliance could void the user's authority to operate the equipment.

## **FCC Radiation Exposure Statement**

- The device has been evaluated to meet the general RF exposure requirements.
- The device can be used in portable exposure conditions without restriction.

## **Have an issue with one of our RK products?**
