GENERAL DESCRIPTION

These instructions are intended to assist you in safe and reliable use. The product is designed and manufactured strictly according to technical specifications using the latest technology and components and maintaining the highest quality standards.

READ THE INSTRUCTIONS CAREFULLY AND UNDERSTAND THEM BEFORE USE.

To ensure long and reliable operation of the device, care should be taken to operate and maintain the device correctly in accordance with the instructions. The technical data and specifications contained in these instructions are up-to-date. The manufacturer reserves the right to make changes for the purpose of quality improvement.

EXPLANATION OF SYMBOLS

Read the instructions before use.

CAUTION! or **WARNING!** or **REMEMBER!** describing a given situation (general warning sign).

ATTENTION! The illustrations in this manual are for illustrative purposes only and may differ in some details from the actual product appearance.

The original version of the instructions is the German version. Other language versions are translations from German. The term “device” or “product” in the warnings and instructions refers to the CONDIMENT BOX.

RULES OF USE

The product is designed to store cocktail additions such as fruit, spices, etc.

The user is responsible for any damage caused by improper use.

DESCRIPTION OF USE

1. Remove all packaging and wash the product before use.
2. Place the product on a level, stable, sufficiently robust work surface that is at least equal in size to the product.
3. Place the containers on the frame, then add the food items and cover with the lid.
4. The product should be cleaned regularly as recommended further in this manual to prevent mould growth, etc.

CLEANING AND MAINTENANCE

1. Use only non-corrosive agents for cleaning the surface.
2. Only mild cleaning agents designed for cleaning surfaces which come into contact with food may be used to clean the device.
3. After each cleaning, all components should be well dried before the device is used again.
4. Store the device in a dry and cool place protected from moisture and direct sunlight.
5. Use a soft cloth for cleaning.
6. Do not use sharp and/or metal objects for cleaning (e.g. a wire brush or metal scraper) as these may damage the surface of the device.
7. Do not clean the unit with acidic substances, medical products, thinners, fuel, oil or other chemicals as they may damage it.
