Ruijie E4 Networking Router

Product Information

- **Specifications:**

- **FCC Compliance:** Part 15
- **FCC Radiation Exposure:** Minimum distance of 20cm between the radiator and the body
- **ISED Compliance:** License-exempt transmitter(s)/receiver(s)
- **ISED Radiation Exposure:** Not specified
- **5G Statement:** Not specified

Product Usage Instructions

- **Safety Information:**

- Ensure compliance with FCC and ISED regulations for safe operation.

- **Facility:**

- Install the device with a minimum distance of 20cm between the radiator and your body to comply with FCC radiation exposure limits.

- **Operation:**

- Operate the device within the specified guidelines to avoid interference and ensure proper functioning.

- **Maintenance:**

- Regularly check and clean the device to maintain optimal performance.

- **Disposal:**

- Dispose of the device responsibly following local regulations for electronic waste disposal.

- **FAQ (Frequently Asked Questions)**

- **Q: What should I do if the device causes interference?**

- **A:** If interference occurs, try adjusting the positioning of the device or contact customer support for assistance.

- **Q: Can I use the device closer than 20cm to my body?**
 - **A:** To comply with FCC radiation exposure limits, maintain a minimum distance of 20cm between the device's radiator and your body.
- **Q: Is the device compatible with 5G technology?**
 - **A:** The user manual does not specify compatibility with 5G technology. Please refer to the product specifications for details.

Safety Information

- Do not use your device if using the device is prohibited. Do not use the device if doing so causes danger or interference with other electronic devices.
- Do not attempt to disassemble, repair, or modify the device. If you need service, please contact us.
- Avoid dusty, damp, or dirty environments. Avoid magnetic fields. Using the device in these environments may result in circuit malfunctions.
- Please carefully check the ideal operating temperature and storage temperature on the user guide. Extreme heat or cold may damage your device or accessories.
- The device should be installed and operated with a minimum distance of 20 cm between the radiator and your body.
- Using an unapproved or incompatible power adapter, charger, power cord, cable or battery may damage your device, shorten its lifespan, or cause a fire, explosion, or other hazards.
- For pluggable devices, the socket outlet shall be installed near the devices and shall be easily accessible.
- The adapter shall be installed near the equipment and shall be easily accessible.
- Do not touch the device or the charger with wet hands. Doing so may lead to short circuits, malfunctions, or electric shocks.
- If the product or external adapter includes one three-pole AC inlet, then plug the product into the wall outlets with earthing connection through the power supply cord provided by the manufacturer.
- Do not block any ventilation openings. Install this apparatus by the manufacturer's instructions.
- Do not install this apparatus near any heat sources such as radiators, heat registers, stoves or other apparatus (including amplifiers) that produce heat.
- Protect the power cord from being walked on or pinched, particularly at plugs, convenience receptacles and the point where they exit from the apparatus.
- Users should only use power adaptors, attachments, and accessories supplied or specified by the manufacturer.
- Use only with the cart, stand, tripod, bracket or table specified by the manufacturer or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over

FCC

FCC Compliance Statements

This device complies with Part 15 of the FCC Rules.

Operation is subject to the following two conditions:

1. this device may not cause harmful interference, and

2. this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, under Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used by the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance 20cm between the radiator and your body.

ISED Compliance Statements

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s).

Operation is subject to the following two conditions:

1. This device may not cause interference.
2. This device must accept any interference, including interference that may cause undesired operation of the device. compromettre le fonctionnement.

ISED Radiation Exposure Statement

- This equipment complies with IC RSS-102 radiation exposure limits set forth for an uncontrolled environment.
- This equipment should be installed and operated with a minimum distance of 20 cm between the radiator and your body.

5G Statement

The user manual for LE-LAN devices shall contain instructions related to the restrictions mentioned in the above sections, namely:

- **a)** the device for operation in the band 5150-5250 MHz is only for indoor use to reduce the potential for harmful interference to co-channel mobile satellite systems;
