- UTV Stereo RZR Pro Series Stage 7 Ride Command Kit

## USING STEPS

## INSTRUCTIONS

### FOLLOW INSTRUCTIONS TO INSTALL YOUR UTV STEREO STAGE KIT

Each individual part has its own specific install instructions and/or install video that can be found on that particular items page at [utvstereo.com](http://utvstereo.com) Use this resource to install each part individually.

- **Step 1:** Run both 86" power harnesses from the battery through the center console. Remove the shift knob plastic housing to run the wire towards the front of the vehicle and through the rubber grommet. Leave the battery disconnected. \*Preinstall the optional LED power harness for RGB activation.
- **Step 2:** Remove the upper dash plastics.
- **Step 3:** Install the firewall and center amplifier mounts and both amplifiers. (Reference [Firewall](#) and [Center Amp Mount](#) Instructions)
- **Step 4:** Locate the OEM amplifier in the dash and unplug the factory harness. Remove the factory amp and plug the pro-RCA out harness into the OEM plug. (Reference [Pro Series RCA Out Harness](#) Instructions)
- **Step 5:** In the dash, locate the blue OEM sub out plug and plug in the rocker switch bass knob. Route the RCA cables to the mono block amplifier.
- **Step 6:** Remove all OEM speaker enclosures: rear, dash, and tweeters. Unload OEM speakers.
- **Step 7:** Install the 10" vented dash subwoofer enclosure. Once the enclosure is secure, mount the subwoofer into the enclosure. (Reference [Pro Series 10" Vented Dash Enclosure Instructions](#))
- **Step 8:** Install the Pro 6.5" speakers into the front dash pods (2) and reinstall them into the OEM locations.
- **Step 9:** Install the tweeters into the OEM location. \*Connect optional LED Power Harness for RGB Activation. (Reference [Tweeter Manual](#))
- **Step 10:** Wire the Pro 6.5" speakers into the unmounted rear pods. Connect the optional LED power harness for RGB activation. (Reference [Pro Series 6.5" Speaker Manual](#))
- **Step 11:** Make the connections and install the loaded rear pods (2).
- **Step 12:** Connect power harnesses to the amplifier(s) and tune your system. (Reference & 4).

## WIRING

## TUNING YOUR SYSTEM

THIS WILL SHOW YOU EXACTLY WHERE TO SET THE ADJUSTMENTS OF YOUR AMPLIFIER(S) USE THESE SETTINGS FOR OPTIMAL PERFORMANCE! ELITE SERIES

**UTVS-E1600.5D**

## TUNING BLUEPRINT 'STARTING POINT'

1. Cut out the image along the red outline.
2. Align the cutout image with the amplifier tuning panel
3. Make your adjustments
