S2B App Contro

Specifications

- **Model:** ABC123
- **Power:** 120V, 60Hz
- **Dimensions:** 10 x 5 x 15 inches
- **Weight:** 5 lbs
- **Material:** Stainless Steel

Product Usage Instructions

Unboxing and Setup:

Upon receiving the product, carefully unbox it and ensure all parts are included. Follow the assembly instructions to set up the product properly.

Powering On:

Plug the power cord into a 120V outlet with a frequency of 60Hz. Ensure the power switch is in the off position before plugging in. Turn on the device using the power button.

Operating the Product:

Refer to the control panel for different settings and functions. Follow the user manual for specific instructions on using each feature of the product.

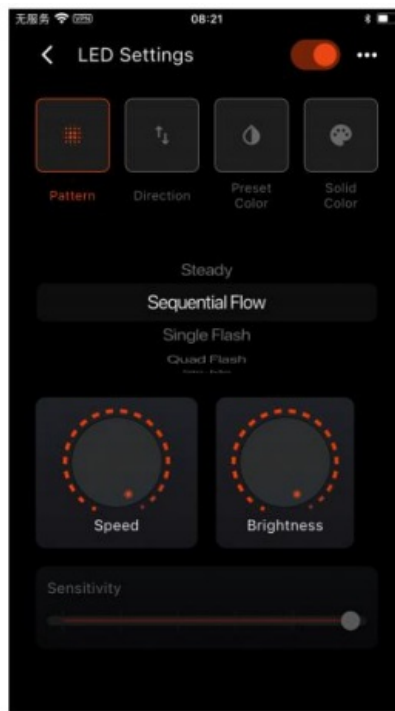

Cleaning and Maintenance:

After each use, make sure to clean the product following the cleaning instructions in the manual. Regular maintenance will ensure optimal performance and longevity of the product.

FCC Statement:

This device complies with part 15 of the FCC Rules.

Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may

cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules.

- These limits are designed to provide reasonable protection against harmful interference in a residential installation.
- This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.
- However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help. Caution: Any changes or modifications not expressly approved by the party

FAQS

Q: How do I adjust the temperature settings?

A: To adjust the temperature settings, use the temperature control knob located on the front panel of the product. Turn the knob to increase or decrease the temperature as needed.

Q: Can this product be used for outdoor purposes?

A: No, this product is designed for indoor use only. Using it outdoors may damage the product and pose safety risks.
