## Sablute MA31 Wireless Keyboard Combo

## Where is USB

Opening the cover reveals the position of the internal USB receiver and where the battery is placed.

Take out the USB from the back of the mouse. The mouse and keyboard share one USB.

## How to set up

- Step 1: Please put the USB receiver into your computer.
- Step 2: then turn on the keyboard and mouse.

Note: The keyboard and mouse will automatically connect to the computer, no driver needed.

### Why won't the keyboard connect?

**Pairing method:** Long-press the “ESC” + “=” keys for three seconds until the red light flashes. Then, immediately plug in the receiver.

### What should I do if the mouse disconnects?

**Left Button**

**Right Button**

**Scroll wheel**

Press and hold the left, middle, and right buttons of the mouse until the indicator light flashes, then plug the USB into the computer.

### **The Functions of a Mouse**

Mouse function: The button function of the mouse in the package.

## The Function of Single-key Shortcuts

A single function key that triggers the function directly when pressed.

Shortcut keys

FN	FN key + function key		Copy

## **FCC Statement**

This equipment has been tested and complies with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures.

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by the manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 0cm between the radiator and your body.

## **FAQ**

Q1: The keyboard and mouse can not be connected.

A1: Please switch on the keyboard, press “Esc” + “=”, the LED indicator light will flash quickly. Plug the 2.4GHz USB receiver into the computer. Within 10 seconds, put the keyboard at 10 cm near the receiver for pairing. When the light turns off, the keyboard pairing is successful. Turn on the power switch at the bottom of the mouse. Please hold down the left and right mouse buttons as well as the scroll wheel button simultaneously. The light at the bottom of the mouse will light up. Insert the USB receiver into the computer and place the mouse within 10cm of the receiver for pairing

Q2: What should I do if the keyboard gets delayed or stuck?

A2: Please check there is no 2.4GHz device (e.g. router) nearby to interfere with the connection. Please check there is no full metal case that may block the signal.
