Sainlogic 300L Collapsible Folding Wagon

Specifications

- Manufacturer: Zhejiang Ruicheng Mechanical Power Co.,Ltd
- Address: Shentang Industrail Zone, Wuyi County, Jinhua City, Zhejiang Province, China
- Maximum Carrying Capacity: 150kg
- Usage: Gardening, Picnic, Outdoor camping, Express delivery, Moving, Outdoor shooting, Fishing and leisure, Painting and sketching, Supermarket cargo handling, etc.

Wheel Installation and Removal

Before use, install the wheel as shown below:

1. Place the folding wagon on the ground.
2. Open the frame to both sides by hand.
3. Press the convex position in the center of the car pocket to fully unfold the frame.
4. Lay the folded bottom plate on the bottom of the car pocket.
5. Install the wheel by inserting it into the axle tube according to the corresponding position. Make sure you hear a click indicating proper installation.

Folding and Storage

After taking out the folded bottom plate:

1. Gently lift the bottom center pull ring, and the frame will automatically gather.

2. When adjusting any movable parts, maintain a safe distance from limbs.
3. Avoid using on stairs or dangerous places.
4. To avoid finger pinching, be cautious when folding and unfolding.

Brake Instructions

Firmly press lock to lock the wheel and gently press unlock to unlock it. Do not use the brake on ground with a gradient greater than 5 degrees.

Pull Rod Usage

Press the press button on the pull rod to shorten it when not in use. Pull out the pull rod directly during use. The pull rod can be adjusted to different heights for user convenience.

Instructions

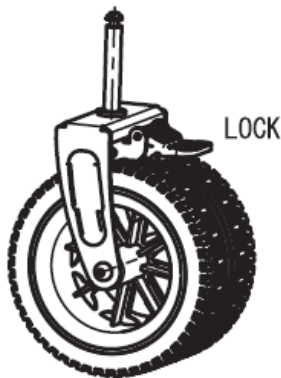

1. Wheel installation and removal: please install the wheel as shown below before use.

Install the wheel and insert it into the axle tube according to the corresponding position. If you hear a click, it means that the installation is completed. (pay attention to distinguish front and rear wheels)

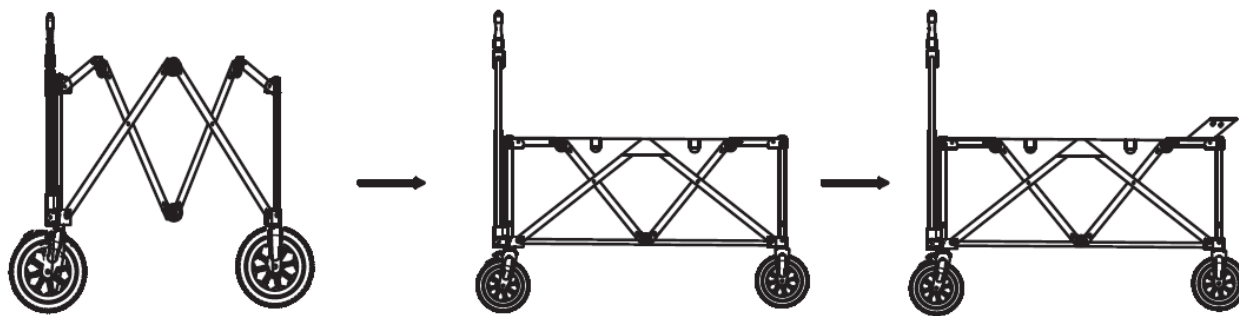

Remove the wheel: press and hold the quick release button near the axle tube to pull out the wheel.

Brake instructions: firmly press “lock” to lock the wheel, and gently press “unlock” to unlock it. (Note: do not use the brake on the ground with a gradient greater than 5 degrees.)

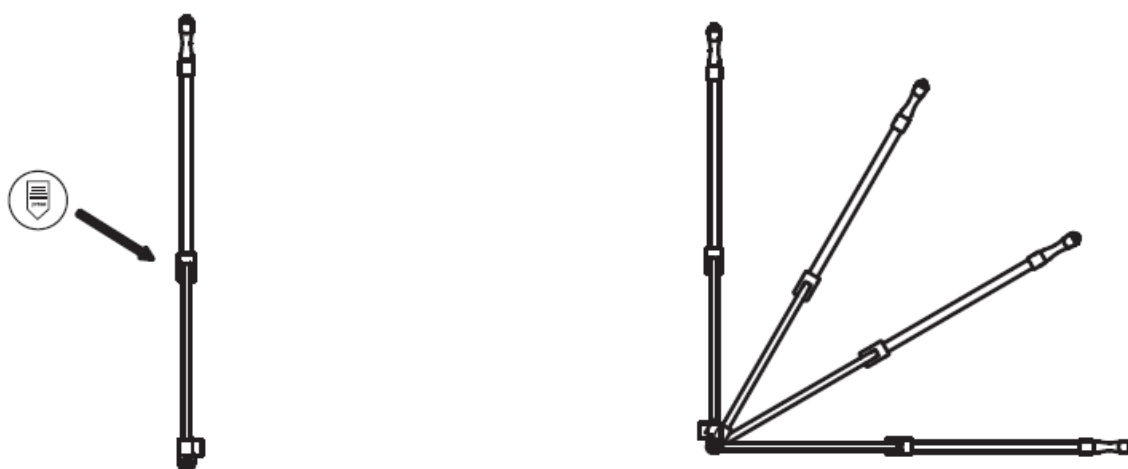

2. Place the folding wagon on the ground, open the frame to both sides by hand, press the convex position in the center of the car pocket to fully unfold the frame, and then lay the folded bottom plate on the bottom of the car pocket. It can be used after installation.

3. Folding and storage: after taking out the folded bottom plate, gently lift the bottom center pull ring, and the frame will automatically gather.

4. When not in use, press the “press” button on the pull rod to shorten the pull rod; Pull out the pull rod directly during use. The pull rod can hover and be stressed at any position within 90 degrees, so that it can be used by people of different heights.

Maintenance

1. When cleaning the cloth bag, please use a water temperature below 30 degrees Celsius to clean it. Please do not bleach it.
2. When cleaning the frame, only use neutral detergent and warm water.
3. Please check your cart at any time, and replace or repair loose and worn parts, fallen materials or sewing gaps in time.
4. Excessive exposure to the sun will easily lead to aging or deformation of the cart.
5. When this product is wet or rainy, please unfold the cart and drain it, and then put it away after drying.
