SALKING 2-in-1 essential oil diffuser

INTRODUCTION

If you're looking for a way to relax and unwind with the help of essential oils and a therapeutic light, consider the SALKING 2-in-1 Ultrasonic Essential Oil Diffuser & Himalayan Salt Lamp. In addition to diffusing your preferred essential oils into the air, this space-saving device imparts a soft, comforting light that helps set the mood for relaxation. The diffuser silently and efficiently fills your home with a pleasant aroma thanks to its 150 ml capacity. A soothing orange glow emanates from the Himalayan pink salt rock, making it an ideal accent piece for any room in the house, whether it's a nursery, workplace, or business. For your added peace of mind, there is an automatic shutoff function and a sleep mode. This \$32.99 diffuser was released on August 22, 2022, by the well-known health product brand SALKING. This versatile diffuser has a dual purpose: it may help improve air quality while also adding a touch of ambience, making it the perfect complement to any room.

Glow	Calming Orange Glow, Similar to Candlelight
Additional Features	Creates Ambient Glow, Uplifting Energy, Therapeutic Glow

WHAT’S IN THE BOX

- Essential oil diffuser
- User Manual

PRODUCT OVERVIEW

HOW TO USE

Put the salt rock in container

Press the light button

Add your pure essential oil

Now enjoy the fragrance

FEATURES

- **2-in-1 Features:** A Himalayan salt lamp and an ultrasonic essential oil diffuser work together to provide aromatherapy and calming light.

- Uses ultrasonic vibrations to disperse aromatic oils into a fine mist for use in aromatherapy.
- With a 150 ml capacity, you may spray continuously for hours without worrying about running out of water.
- A cool mist humidifier is perfect for dry places since it adds moisture to the air and keeps it from being too dry.
- As soon as the water level drops too low, the device turns off automatically to avoid overheating and keep users

safe.

- Runs quietly so it won't annoy you when you're trying to get some work done or sleep in a nursery or bedroom.
- When you're ready to get some shut-eye, you may switch to the sleep mode, which dims the lights and turns off the mist.
- To avoid unnecessary use and save energy, the diffuser comes with a timer that lets you set it to run for a certain amount of time.
- **Rock of Pure Himalayan Pink Salt:** This diffuser has therapeutic benefits and helps to create a relaxing environment thanks to the inclusion of 100% pure Himalayan pink salt.

- **Relaxing Ambiance:** The Himalayan salt rock creates an orange light that is soft and inviting, similar to candlelight, which can help to set a tranquil mood in any space.
- The diffuser's wooden grain style goes with both contemporary and classic interiors, making it a versatile piece.
- **Lightweight and Small:** Its small size and light weight make it convenient to transport and use in a variety of places, such as cars, workplaces, and nurseries.
- The healing radiance of Himalayan salt rock can assist with energy balance and the development of a feeling of peace and contentment.
- Uses very little power and can run continuously over long periods of time without drastically raising power bills; this is known as energy efficiency.
- **Beauty Mist:** Adds a touch of mist and the long-lasting aroma of your favorite essential oils to any room.

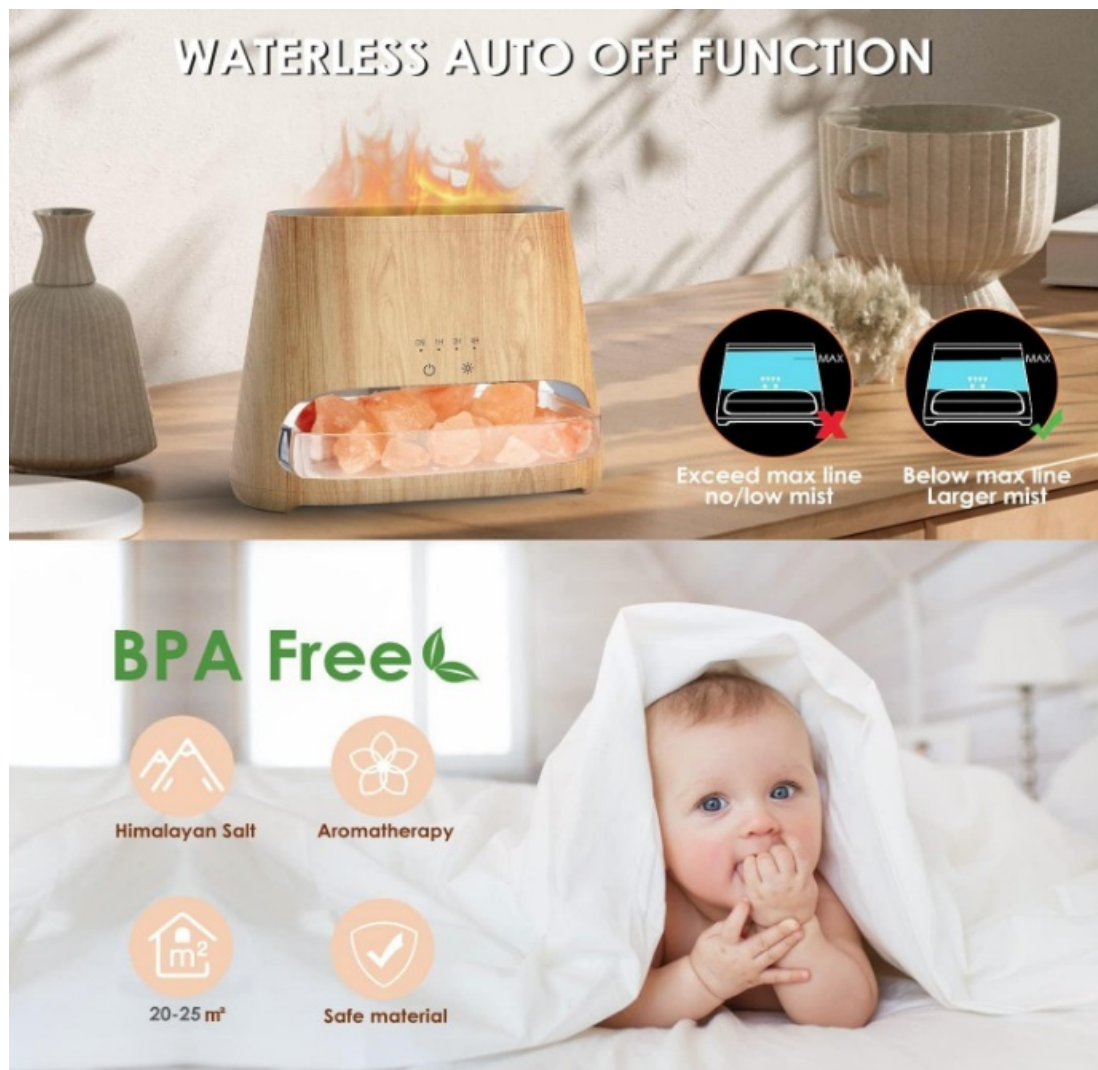

SETUP GUIDE

- **Take It Out of the Box:** Take the diffuser, Himalayan salt lamp, and power cord out of the box and make sure they're all there.
- **Set Up on a Level Surface:** Once you've decided where you want to put the diffuser, make sure it's on a flat, sturdy surface and that it has enough air circulation.
- **To Add Water,** Pop Open the Water Tank Lid and Fill It Up to No More Than 150 ml.
- **Enhance the Aroma:** Incorporate three to five drops of your chosen essential oils into the water for a calming fragrance.
- Use the included cord to connect the diffuser to an electrical outlet in close proximity.
- Press the power button to start releasing the cool mist from the ultrasonic diffuser.
- **Choose Timer Settings:** From one hour to three hours, or even continuous operation, you can set the timer to run the diffuser for as long as you choose.
- **Turn on Sleep Mode:** For use at night, turn on sleep mode to decrease the light and make it quieter.
- If the salt lamp's light intensity is variable, you can set it to whichever level you choose for the ideal mood.
- Make sure the mist output is set to the intensity you desire; certain models let you do this.
- If you want the mist to spread uniformly across the room, you need to put the diffuser somewhere that gets enough of air.
- **Turn on the Salt Lamp:** For further visual appeal and therapeutic effects, turn on the salt lamp and gently illuminate the Himalayan salt rock.

- Keep an eye on the water level and add more water as necessary so the diffuser doesn't run dry.
- After each use, turn the unit off and disconnect the power cord, or use the timer if one is available.
- To keep the diffuser in top working order, clean it after each usage and drain any excess water from the tank.

CARE & MAINTENANCE

- To make sure the item is safe to clean, you should always switch it off and remove the power cord before beginning.
- **Empty the Tank After Each Use:** To Avoid Bacterial Growth, Always Empty the Tank After Each Use.
- **Maintaining a Clean Water Tank:** On a frequent basis, particularly when dealing with hard water or residue, wipe down the water tank with a gentle cloth and some light soap.
- To clean the Himalayan salt lamp, gently use a dry towel to wipe off any dust or residue.
- Never clean the diffuser with abrasive items or strong chemicals; doing so could ruin the surface or diminish the fragrance.
- If you have hard water, descale the diffuser on a regular basis by immersing the tank in a vinegar-and-water mixture for several hours, and then giving it a good rinsing.
- The ultrasonic plate should be carefully inspected for mineral deposits and cleaned with a gentle cloth or cotton swab.
- To prevent mold and moisture buildup, keep the diffuser dry by storing it in a dry place while it's not in use.
- To keep the diffuser in good condition for as long as possible, keep it away from heat sources and damp places.
- To keep the quality of the scent intact, it is recommended to change the essential oils in the tank periodically with new oil.
- In the case that the power cable sustains damage, it is imperative that you replace it without delay in order to eliminate any potential safety risks.
- **Check for Wear and Tear:** Regularly inspect the diffuser for signs of wear and tear and address any issues immediately.
- **Maintain the Timer Setting:** Ensure that the timer function is working correctly by testing it periodically.

- **Use with Distilled Water:** Using distilled water will reduce mineral buildup and ensure smoother mist output.
- **Keep Away from Children:** Always keep the diffuser out of reach of children to prevent accidents or misuse.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Diffuser isn't emitting mist	Water level is too low	Refill the water tank with the appropriate amount of water.
Diffuser not turning on	Power connection issue	Ensure the unit is properly plugged in and powered on.
No scent from essential oils	Oils are not added or diffuser is clogged	Add essential oils and clean the diffuser as per instructions.
Salt lamp glow is too dim	Salt rock is not properly placed	Adjust the salt rock placement or clean it if necessary.
Diffuser is making noise	Water tank is overfilled or clogged	Check and clean the ultrasonic plate to ensure smooth operation.
The diffuser is leaking water	Tank is improperly secured or damaged	Refill carefully and ensure the tank is tightly sealed.
Light from salt lamp flickers	Loose connection or power issue	Check the power cord and connections for any damage.
Diffuser is not turning off	Timer or auto-shutoff not set correctly	Set the timer function or ensure auto-shutoff is working properly.
Salt lamp doesn't glow properly	Salt rock might be wet or saturated	Dry the salt rock and ensure the light bulb is functioning.
Mist production is weak	Ultrasonic plate needs cleaning	Clean the ultrasonic plate as per the manual's instructions.

PROS & CONS

Pros:

1. Dual functionality as both an essential oil diffuser and a Himalayan salt lamp.
2. Compact design, perfect for any room or office space.
3. Silent operation ensures no disturbance while relaxing.
4. Automatic shut-off feature for safety and convenience.
5. Soft, therapeutic Himalayan salt glow creates a soothing atmosphere.

Cons:

1. Smaller capacity of 150ml may require more frequent refills.
2. Limited to corded electric power, no battery option.
3. Diffuser might be less effective in larger spaces.
4. The salt lamp glow may not be bright enough for larger rooms.
5. Requires regular cleaning to maintain optimal performance.

WARRANTY

The SALKING 2-in-1 Essential Oil Diffuser comes with a **1-year** limited warranty, which covers defects in materials or workmanship under normal usage.

FREQUENTLY ASKED QUESTIONS

What is the capacity of the SALKING 2-in-1 Essential Oil Diffuser?

The SALKING 2-in-1 Essential Oil Diffuser has a capacity of 150 milliliters, providing ample space for oils to diffuse over an extended period.

What is the power source for the SALKING 2-in-1 Essential Oil Diffuser?

The SALKING 2-in-1 Essential Oil Diffuser operates using corded electricity, ensuring a continuous power supply for long-term use.

Where can I use the SALKING 2-in-1 Essential Oil Diffuser?

The SALKING 2-in-1 Essential Oil Diffuser is perfect for use in vehicles, offices, homes, and nurseries, offering versatility for different environments.

What material is the SALKING 2-in-1 Essential Oil Diffuser made from?

The SALKING 2-in-1 Essential Oil Diffuser is made from high-quality plastic, ensuring durability and a sleek design.

When was the SALKING 2-in-1 Essential Oil Diffuser first available?

The SALKING 2-in-1 Essential Oil Diffuser was first available on August 22, 2022, bringing a modern solution to essential oil diffusion.

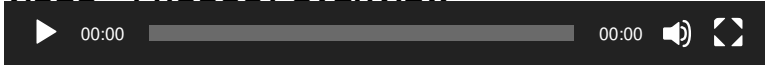

Does the SALKING 2-in-1 Essential Oil Diffuser have a large enough capacity for extended use?

With a 150-milliliter capacity, the SALKING 2-in-1 Essential Oil Diffuser offers enough space for prolonged diffusion, making it suitable for continuous use throughout the day.

Is the SALKING 2-in-1 Essential Oil Diffuser portable?

While the SALKING 2-in-1 Essential Oil Diffuser is corded electric, it is still portable, allowing for easy use across various locations like the home, office, or vehicle.
