SALUS SR600 Smart Remote Relay Device

Introduction

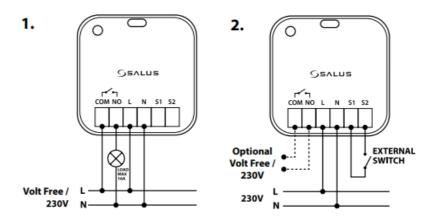

Smart Relay (SR600) is a switching relay product that can be used to power on or off a maximum 16A load. It can be installed directly within a wall box or surface mounted onto the wall (using the optional SRS600 wall mount bracket). This product must be used with the Universal Gateway (purchased separately). The Universal Gateway allows communication with other SALUS Smart Home products using the

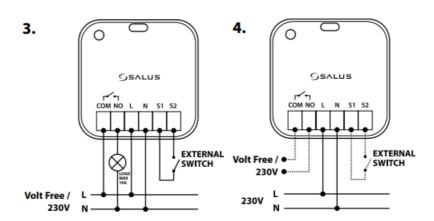

SALUS Smart Home App.

Product Compliance: This product complies with the essential requirements and other relevant provisions of Directives 2014/53/EU (RED) and 2011/65/EU. The full text of the EU Declaration of Conformity is available at the following internet address: www.saluslegal.com. 2405-2480MHz; <14dBm

Safety Information: Use in accordance with the regulations. Indoor use only. Keep your device completely dry. Disconnect your device before cleaning it with a dry cloth. This accessory must be fitted by a competent person, and installation must comply with the guidance, standards and regulations applicable to the city, country or state where the product is installed. Failure to comply with the relevant standards could lead to prosecution.

Wiring diagram

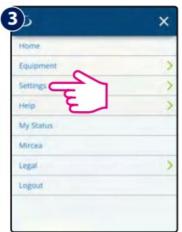

Terminals

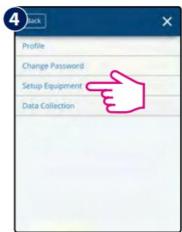

СОМ	Common terminal	
NO	Switch terminal	
L	Power supply 230V AC
