## Legal Disclaimer

The Western Digital Corporation or its affiliate's general policy does not recommend the use of its products in life support applications wherein a failure or malfunction of the product may directly threaten life or injury. Without limitation to the foregoing, SanDisk shall not be liable for any loss, injury, or damage caused by use of its products in any of the following applications:

- Special applications such as military related equipment, nuclear reactor control, and aerospace.
- Control devices for transportation equipment including automotive vehicles, trains, ships, and traffic equipment.
- Safety systems for disaster prevention and crime prevention.
- Medical-related equipment (including medical measurement devices).

Accordingly, in any use of SanDisk products in life support systems or other applications where failure could cause damage, injury, or loss of life, the products should only be incorporated in systems designed with appropriate redundancy, fault tolerant, or back-up features. Per SanDisk Terms and Conditions of Sale, the user of SanDisk products in life support or other such applications assumes all risk of such use and agrees to indemnify, defend, and hold harmless Western Digital Corporation or its affiliates against all damages.

Security safeguards, by their nature, are capable of circumvention. SanDisk cannot, and does not, guarantee that data will not be accessed by unauthorized persons, and SanDisk disclaims any warranties to that effect to the fullest extent permitted by law

this document and related material are for information use only and are subject to change without prior notice. Western Digital Corporation or its affiliates assumes no responsibility for any errors that may appear in this document or related material, nor for any damages or claims resulting from the furnishing, performance, or use of this document or related material. absent a written agreement signed by Western Digital Corporation or its affiliates or its authorized representative to the contrary, Western Digital Corporation or its affiliates explicitly disclaims any express and implied warranties and indemnities of any kind that may, or could, be associated with this document and related material, and any user of this document or related material agrees to such disclaimer as a precondition to receipt and usage hereof. Each user of this document expressly waives all guaranties and warranties of any kind associated with this document and/or related materials, whether expressed or implied, including without limitation, any implied warranty of merchantability or fitness for a particular purpose or infringement, together with any liability of Western Digital Corporation or its affiliates and its affiliates under any control, negligence, strict liability of Western Digital Corporation or its affiliates and its affiliates under any contract, profit or other incidental, punitive, indirect, special, or consequential damages, including without limitation physical injury or death, property damage, lost data, or costs of procurement of substitute goods, technology, or services.

This document and its contents, including diagrams, schematics, methodology, work product, and intellectual property rights described in, associated with, or implied by this document, are the sole and exclusive property of Western Digital Corporation or its affiliates and its applicable subsidiaries ("SanDisk"). No intellectual property license, express or implied, is granted by SanDisk associated with the document recipient's receipt, access and/or use of this document; SanDisk retains all rights hereto.

No work for hire, nor any form of joint ownership, is granted or implied by the document recipient's receipt, access and/ or use of this document.

Any work requested (or implied by the document recipient to be requested) to SanDisk associated with this document and/or its contents, shall be the sole and exclusive property of SanDisk, except to the extent, if any, expressly agreed otherwise by SanDisk in writing referencing this document.

This document, and SanDisk's communications to the user associated therewith, shall be treated as SanDisk's proprietary and confidential information, protected by the recipient as such, and used by the recipient only for the

purpose authorized in writing by SanDisk. This document shall be covered as SanDisk's confidential information under all applicable nondisclosure agreements between the recipient and SanDisk.

No part of this document may be reproduced, transmitted, transcribed, stored in a retrievable manner, or translated into any language or computer language, in any form or by any means, electronic, mechanical, magnetic, optical, chemical, manual, or otherwise, without the prior written consent of an officer of Western Digital Corporation or its affiliates.

## Revision History

Date	Revision	Section(s)	Description
June 2017			Initial Release: P331

### ESD Caution –Handling

Static electricity may be discharged through this disk subsystem. In extreme cases, this may temporarily interrupt the operation or damage components. To prevent this, make sure you are working in an ESD- safe environment. For example, before handling the disk subsystem, touch a grounded device, such as a computer case.

## Overview

This document describes fixes for the Lightning 6Gb/s SAS SSD firmware

### P331 Firmware

The P331 firmware contains the following fix:

- Fixed issue for Read-Intensive models where the drive was incorrectly determining that Flash blocks were failing due to WL-WL shorts and would mistakenly increment the GLIST up to the point of running out of spares. This may lead the drive to assert and report a SMART trip 04/32/00 (out of spare blocks).
