Product Usage Instructions

1. Connect the radio to a power source using the provided power cable.
2. To turn on the radio, locate the power button and press it.
3. To tune in to a DAB+ or FM-RDS radio station, use the tuning knob or buttons. Rotate the knob or press the buttons to navigate through available stations.
4. To play a CD, insert the CD into the CD slot. The radio will automatically start playing the CD.
5. For USB playback, connect a USB device to the USB Type-B port. Use the control buttons to navigate through the files and select the desired track.
6. If you want to listen to music from an SD card, insert the SD card into the designated slot. Use the control buttons to browse and select the songs.
7. For Bluetooth connectivity, activate Bluetooth on your device and search for available devices. Select "DDR-53BT" from the list and pair it with your device. Once connected, you can stream audio wirelessly to the radio.
8. Use the AUX input to connect external audio devices such as smartphones or MP3 players. Connect one end of an AUX cable to the device's headphone jack and the other end to the AUX input of the radio.
9. To adjust the volume, use the volume control knob or buttons.
10. For additional settings and features, refer to the user manual provided with the product.
