## Dimensions

C21AF001-W0035A12

## Product and Accessories

All parts and accessories are to be found in the packaging. If some of them are missing, please contact us via

LED security light

Bar-shaped mounting plate and 3 screws

Waterproof Gasket

Mounting bolt

3 Wire connectors

Rubber screw cap

### Tools Needed

Cross-head screwdriver

**WARNING:** If you are not sure how to mount / install the product, consult a local specialist technician. The wiring installation shall be strictly applied in compliance with the local regulations, rules and national electrical codes.

### Installation

#### Before installation

1. The product shall be mounted vertically on a flat surface of the wall.
2. Input voltage: local mains supply.
3. Mount the product at a height of 1 – 4 m. The optimal mounting height is 2.4 m.

**WARNING:** Switch off the power supply before mounting the product.

**NOTE:** Find a place to mount the product, where the power line (live, neutral and earthing) is available.

### Step 1 Fixing the mounting plate

1. The bar-shaped mounting plate only matches with the standard junction box with an installation pitch of 88.9 mm.
2. Make sure the bar-shaped mounting plate is firmly tightened with the 2 fixing bolts.

### Step 2 Wire Connection Black – Live L White – Neutral(N) Green – Ground(PE)

Strip wires 3/8"(9.5mm) if not previously stripped. Hold the BLACK house wire and the BLACK fixture wire together with ends even. Align any frayed strands or conductors. Push wires into wire nut and screw clockwise until two twists are visible in the wires. Repeat above procedure for both the GREEN or Ground house wire and the Ground fixture wire.

### Step 3 Mounting the product

1. Insert the mounting bolt through the center of the housing and rear cover.
2. Align the mounting bolt through the center of the sealing gasket to hold it in place.
3. Align the mounting bolt with the center hole of the bar-shaped mounting plate.
4. Position the housing and sealing gasket over the junction box.
5. Use a screwdriver to screw the mounting bolt into the mounting plate, until the product is securely fixed.
6. Fit the rubber screw cap onto the mounting bolt.

### App Installation

Search TuyaSmart on App Store or Google Play to get the app, or you can also scan the QR code below.

Open the app on your smartphone, follow the on-screen instructions to sign up and log in .

**Note:** This App is available on iOS 9.0/Android 4.4 or newer systems.

### Camera Setup

Power on the device, the light will flash once, wait till the indicator turns red and blinking or a prompt tone is heard. If the indicator is not red and blinking, press the reset button for 5 seconds then release, the camera would be successfully reset.

Add the device on the app, select Floodlight Camera under Camera&Lock category.

Follow App's instructions to complete network pairing process, the device will connect to your Wi-Fi network successfully.

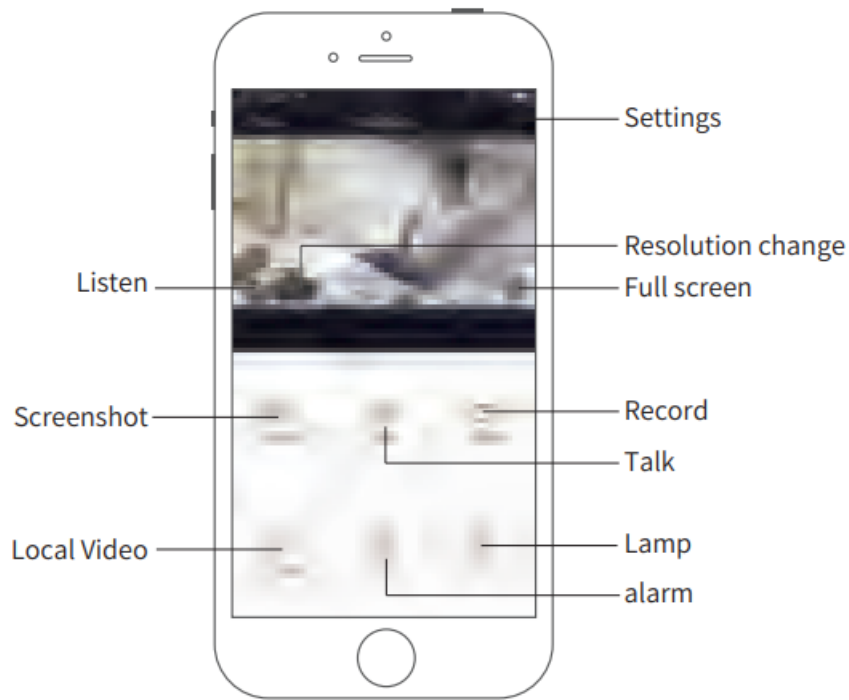

The blue indicator is on, camera is ready for viewing.

**Note:** Only 2.4G WiFi is supported.

The network pairing lasts for about 2 mins. If adding failed, make sure the network is stable and entered WiFi password is correct, re-add the camera.

### Operations on App

Screenshot	Photos saved in mobile phone
Record	If need two way audio, please set in “Settings” -“Basic function settings”
