Saramonic SR-RF5M Microphone Isolation Shield and Reflection Filter

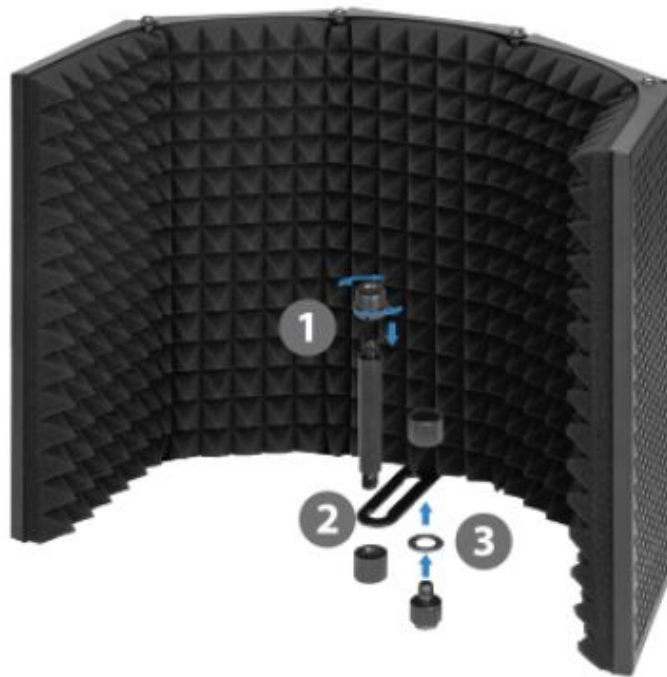

Product Structure

1. Reflection Filter
2. Connecting Rod
3. Connecting Rod Nut x2
4. 3/8" Screw and washer
5. Connecting Plate
6. 5/8" to 3/8" Adapter x2

How to Install

1. Install the adapter on the connecting rod (and then install a microphone on the adapter).
2. Pass the connecting rod through the connecting plate and then fix it with the nut. (the connecting rod can move forward and backward to adjust the position.)
3. If used with a floor stand, fix the washer and the screw on the connecting plate, then mount the isolation shield on a floor stand. (Install a 5/8" to 3/8" adapter if needed)

Note: microphone and floor stand not included.

Features

- Create cleaner, focused sound anywhere
- Reduce room reflections and attenuate room noise
- High-density acoustic foam
- Ideal for professional vocal recording, live stream, etc.

Specifications

- **Maximum Capacity:** 1kg (2.2 lb)
- **Size:** 20x30cm (7.9x11.8")(Min)
- **Weight:** 1000g (35 oz.)
