## V3 USB C Multiport Adapter 8K with Ethernet

Connect the adapter to a compatible USB-C port on your host device.

Use the HDMI port to output video to an external monitor or display – up to 8K at 30Hz or 4K at 60Hz/120Hz/144Hz. Computer, cable, and monitor must support 8K.
8K video output not supported on Mac devices.

Use the USB-C PD port to charge your device up to 100W. ~15W is used for adapter operation.
Video and data transfer not supported.

USB-C data ports allow for transfer data at up to 10 Gbps (A, B, C) and 5 Gbps (D) speeds.
Does not support video output, charging or CD readers including the Apple SuperDrive.

⑤

Connect an Ethernet cable to the adapter's Gigabit Ethernet port.

⑥

UP TO
312 MB/s

SD card reader supports up to UHS-II read/write speeds.
