## Sauermann TrackLog Humidity Data Loggers

## Specifications

- Product Name: TrackLog
- Manufacturer: Sauermann Industrie SAS
- Compliance: Directive 2014/53/EU
- Website: [www.sauermanngroup.com](http://www.sauermanngroup.com)

## Product Information

The TrackLog is a radio equipment type device designed by Sauermann Industrie SAS. It includes features such as calibration, interchangeable probes, a data logger, a gateway, TrackLog server, and a TrackLog app for user convenience.

The product is compliant with Directive 2014/53/EU, and the EU declaration of conformity can be accessed online at the manufacturer's website.

## Product Usage Instructions

### 1. Gateway Setup

Follow the instructions provided in the Quick Start Guide to set up the Gateway.

### 2. TrackLog App Installation

Download and install the TrackLog app on your mobile device from the respective app store.

Use interchangeable probes to collect data and log information using the TrackLog device.

### 3. Customer Service Portal

For any assistance or inquiries, access the customer service portal at [sauermann-en.custhelp.com](http://sauermann-en.custhelp.com).

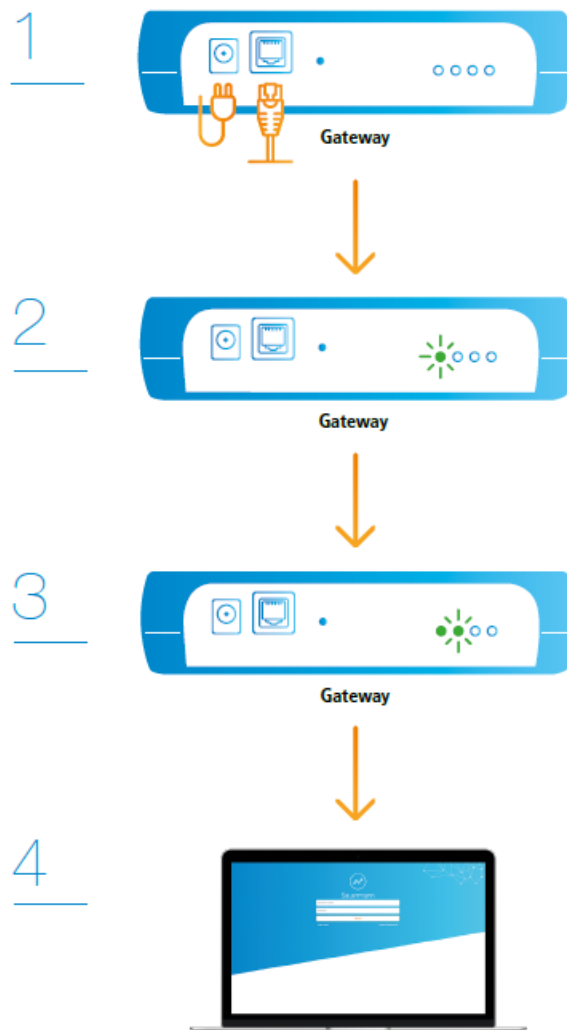

## FAQ

### Q: How do I calibrate the TrackLog device?

A: Calibration instructions can be found in the user manual provided with the product. Follow the specified steps for accurate calibration.

## Quick start guide

1. Connect the gateway to the mains and connect the Ethernet jack
2. The LED flashes when it is connected to the electricity grid
3. The fixed LED indicates that the Gateway is connected to the LoRa® network
4. Log in to [tracklog.inair.cloud](https://tracklog.inair.cloud) to configure your TrackLog data loggers
