Savio PHENIX Wireless Mechanical Keyboard

Product Specifications

- **Warranty Period:** 24 months
- **Manufacturer:** Savio
- **Website:** www.savio.net.pl/en/service

Product Usage Instructions

To ensure proper utilization of the product, follow these guidelines:

1. Charge the battery until the LED indicator switches to standby mode.
2. Dispose of used electrical and electronic equipment at designated collection points or recycling centers to prevent environmental pollution.
3. For warranty claims and repairs, avoid independent repairs or modifications as they can void the warranty.
4. Download the warranty card from the manufacturer's website for warranty coverage.

Information for Customers:

Please note the following information:

- Personal data provision is voluntary but may be required for contract conclusion.
- Failure to provide personal data may lead to contract refusal or termination.
- Personal data will not be used for automated decision making or profiling.

Additional Information:

For further details and language-specific user manuals, visit the manufacturer's website at www.savio.net.pl/en/download.

Thank you for choosing Savio product!

If our product meets your expectations, share your opinion with other people on the portal ceneo.pl, social media or on the web-site of the store where you made the purchase. If you want to show our device on SAVIO Facebook Page, we will be very pleased.

If there is something that we could improve on our products, please write to us at support@savio.net.pl

Thanks to your feedback, we will be able to better adapt the product to your expectations.

Before starting the use of purchased device it is recommended to read the whole manual.

- **Battery:** Li-poly 2000 mAh
- **Working time:** 24 – 200 h (depending on backlight effects)
- **Keyboard dimensions:** 325 × 135 × 35.5 mm
- **Keyboard weight:** 660 ± 20 g
- **Software:** Yes
- **Key backlight:** Full RGB
- **N-key rollover & Anti-ghosting:** Full
- **Macro support:** Yes
- **Compatibility:** Windows Vista, Win 7 / 8 / 10 / 11, Linux, MacOS, Android

Installation process

Installation via USB cable

- Connect the keyboard using the cable from the set to USB-C port in the keyboard and USB-A port in a PC. The operating system will automatically detect, download and install the drivers.
- Once connected, the keyboard backlight will start.
- The keyboard is ready to use.

Installation with 2.4 GHz receiver:

- Connect the 2.4 GHz receiver to USB port in your computer, 2.4 GHz receiver is located on the right side of the keyboard.
- Turn the keyboard on by moving the switch located on the back cover of the keyboard to the ON position.
- For the first pairing of keyboard with 2.4 GHz receiver, press FN + Q for three seconds, the keyboard will enter pairing mode, Q key will flash green.

- When working on different connection mode: Bluetooth / USB, in order to switch back to 2.4 GHz connection mode, use FN + Q combination. The Q key will flash white. After finishing pairing process, the Q key will light with selected backlight color.
- The keyboard is ready to use.

Installation with Bluetooth:

The keyboard features a Multi-Device functionality, which enables connecting up to three devices at the same time.

- Turn the keyboard on by moving the switch to the ON position. The switch is located on the back cover of the keyboard.
- For the first pairing of the device with keyboard via Bluetooth, pick one of the channels: BT1 / BT2 / BT3 by pressing the combination FN + E / FN + R / FN + T for 3 seconds. This will enter pairing mode, depending on the selected Bluetooth channel, key E / R / T will flash blue. You can pair one device per channel, as a result you can pair three different devices with the keyboard.

- Turn on Bluetooth mode on the sending device. Next, turn on 'search new devices' and choose the SAVIO PHENIX keyboard. If the keyboard was paired with the device before, the connection will be set automatically. After the correct pairing, the E / R / T key will light with the selected backlight color.
- Once devices are paired with the keyboard, it is possible to switch between paired devices by changing channels by pressing FN + E / FN + R / FN + T. Depending on the selected channel, key E / R / T will flash white. Once the connection between the device and keyboard is finished the E / R / T key will light with the selected backlight color.

Connection modes description

Key combination	Connection mode
 + 	Bluetooth channel 1 (BT1)
 + 	Bluetooth channel 2 (BT2)
 + 	Bluetooth channel 3 (BT3)
 + 	2.4 GHz
 + 	Corded

Software installation

To get full configuration access you have to download and install dedicated software from our website: www.savio.net.pl/downloads. After the download, double-click on the desktop icon and follow the suggestions. After the successful installation, you will see the software icon on the start menu. Double click the icon to open the settings interface. The software works only during wired connection. All saved functions like backlight colors will be remembered by keyboard when the connection mode is changed to wireless.

- If the keyboard is not used for longer than 2 minutes, it will automatically enter sleep mode.

Safety conditions

- Use the product in accordance with its intended use, as improper use may damage the product.
- Do not expose the device to moisture, heat or sunlight, do not use the product in a dusty environment.
- The device should be cleaned only with a dry cloth.
- Independent repairs and modification result automatic loss of the warranty.
- Hitting or dropping may damage the product.

Information of the utilization of electrical and electronic equipment

This symbol indicates that electrical appliances should not be discarded with other household waste. Used equipment should be handed over to a local collection point for this type of waste or to a recycling center. Please contact your local authorities for information about disposal methods available in your area. Waste electrical equipment may contain hazardous substances (e.g. mercury, lead, cadmium, chromium, phthalates) which can get into air, soil and groundwater when leaking from used appliances. Environmental pollution with these substances leads to their bioaccumulation, causing lesion of disease in living organisms, which would pose a risk to human and animal health or life.

Households may contribute to environmental protection by proper waste collection. In such way, hazardous substances from the equipment are neutralized and valuable secondary raw materials are reused for production of new equipment.

Warranty

The warranty covers a period of 24 months. Independent repairs and modifications result in automatic loss of the warranty. Warranty card is available for download on our website: www.savio.net.pl/en/service

Frequently Asked Questions

Q: How long is the warranty period?

A: The warranty period is 24 months from the date of purchase.

Q: Can I repair the product myself without voiding the warranty?

A: No, independent repairs or modifications will result in the loss of warranty coverage. Please contact authorized service centers for repairs.

Q: What should I do with used electrical equipment?

A: Dispose of used electrical equipment at local collection points or recycling centers to prevent environmental pollution and promote proper waste management.
