Information for customers and contractors and communication regarding complaints:

Pursuant to Article 13 section 1 and 2 of the General Data Protection Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 (hereinafter referred to as GDPR), please be advised that Elmak Sp. z o.o., with its registered seat at ul. Morgowa 81; 35-323 Rzeszów becomes the Administrator of your personal data. The Specialist for General Data Protection (SODO) can be contacted in writing to: SODO, Elmak Sp. z o.o., ul. Morgowa 81; 35-323 Rzeszów, via e-mail address: sodo@elmak.pl, and by phone at +48 (17) 854 98 14. Your personal data will be processed in order to perform the contract, in accordance with Article 6(1)(b) of the aforementioned regulation, to the extent resulting from tax laws and financial regulations. Recipients of your personal data include entities authorized by legal regulations to obtain personal data as well as processing entities providing services to Elmak Sp. z o.o. Your personal data will be stored on the basis of Administrator's legitimate interest. You have the right to access your data, and the right to rectify, delete or limit processing of your data. You have the right to lodge a complaint to the supervisory body if you believe that the processing violates the GDPR. The provision of personal data is voluntary, however, a failure to provide such data may result in a refusal to conclude or in termination of a contract. Your personal data will not be subjected to automated decision making, including profiling referred to in Article 22 section 1 and 4 of the GDPR of April 27, 2016.

Information of the utilization of electrical and electronic equipment

This symbol indicates that electrical appliances should not be discarded with other household waste. Used equipment should be handed over to a local collection point for this type of waste or to a recycling center. Please contact your local authorities for information about disposal methods available in your area. Waste electrical equipment may contain hazardous substances (e.g. mercury, lead, cadmium, chromium, phthalates) which can get into air, soil and groundwater when leaking from used appliances.

Environmental pollution with these substances leads to their bioaccumulation, causing lesion of disease in living organisms, which would pose a risk to human and animal health or life. Households may contribute to environmental protection by proper waste collection. In such way, hazardous substances from the equipment are neutralized and valuable secondary raw materials are reused for production of new equipment.
