**SBE 1193 Key Gor USB Blocker Type A**

## Product Information

### Specifications

- **Product Name:** USB Blocker Type A
- **Total Units:** 37
- **Unit Price:** \$37.00
- **Color Options:** Red, White, Blue, Green, Orange, Pink
- **Unit Conditioning:** Individually packed
- **Guarantee:** 1 year for USB-A
- **Type of USB:** USB-A

### Product Usage Instructions

#### 1. Step 1: Unboxing

Open the packaging and take out the USB Blocker Type A key.

#### 2. Step 2: Choosing the Color

Select the desired color of the USB Blocker Type A key. It is available in Red, White, Blue, Green, Orange, and Pink.

#### 3. Step 3: Preparing the USB-A Port

Ensure that the USB-A port you want to block access to is free from any connected devices.

#### 4. Step 4: Inserting the USB Blocker Type A Key

Take the USB Blocker Type A key and align it with the USB-A port. Insert the key firmly into the port until it is fully seated.

#### 5. Step 5: Locking the USB Blocker Type A Key

Rotate the key clockwise to lock it in place. Ensure that the key is securely locked to prevent accidental removal.

#### 6. Step 6: Verifying the Blockage

Check if the USB-A port is no longer functional by attempting to connect a USB device. The connection should

be blocked.

## 7. Step 7: Removing the USB Blocker Type A Key

To remove the USB Blocker Type A key, rotate it counterclockwise to unlock it. Gently pull the key out of the USB-A port.

## Frequently Asked Questions (FAQ)

- **Q: What is the purpose of the USB Blocker Type A?**

A: The USB Blocker Type A is designed to block access to a USB-A port, reducing the risk of data leakage.

- **Q: Can I reuse the USB Blocker Type A key?**

A: Yes, the USB Blocker Type A key can be reused multiple times.

- **Q: What is the guarantee period for the USB Blocker Type A?**

A: The USB Blocker Type A comes with a 1-year guarantee for USB-A ports.

- **Q: Can I use the USB Blocker Type A with other types of USB ports?**

A: No, the USB Blocker Type A is specifically designed for USB-A ports and may not be compatible with other types of USB ports.

## Key for USB blocker Type A

- **Total:** €37.00
- **Unit:** the key

- Blocks access to a USB-A port
- Available in 5 colors
- Reduces the risk of leakage
- Easy to use

This key allows you to install and remove a blocker on a USB port to prevent users from plugging in any USB cable or plug and thus prevent data leakage.

## The advantages of having a USB blocker

The USB blocker is an ideal solution to protect and quickly block access to USB ports. The USB blocker reduces the risk of data loss, leakage, unauthorised downloading and copying of content. In addition, it is a physical

solution, which means that it can be used correctly without downloading software or using additional equipment.

Instructions for use of the USB blocker and the key

- You need to insert the blocker into a USB port and then release the latch. After installation, it is practically impossible to access the USB port of the computer, thus protecting computer data or the introduction of a virus. You must have the key, of the right colour, to be able to remove the blocker. Please note that the key of a colour only opens blockers of the same colour. For example, the red key only opens the red blockers.
- This key completes our pack of 10 USB-A blockers.
- **Please note:** you must use the same colour key as the blockers for this to work.
