## ODD installation

Take off the plastic front panel, then put ODD in the ODD bay according to the arrow direction shows in the following illustration, align the screws holes of both sides, then fix ODD by screws.

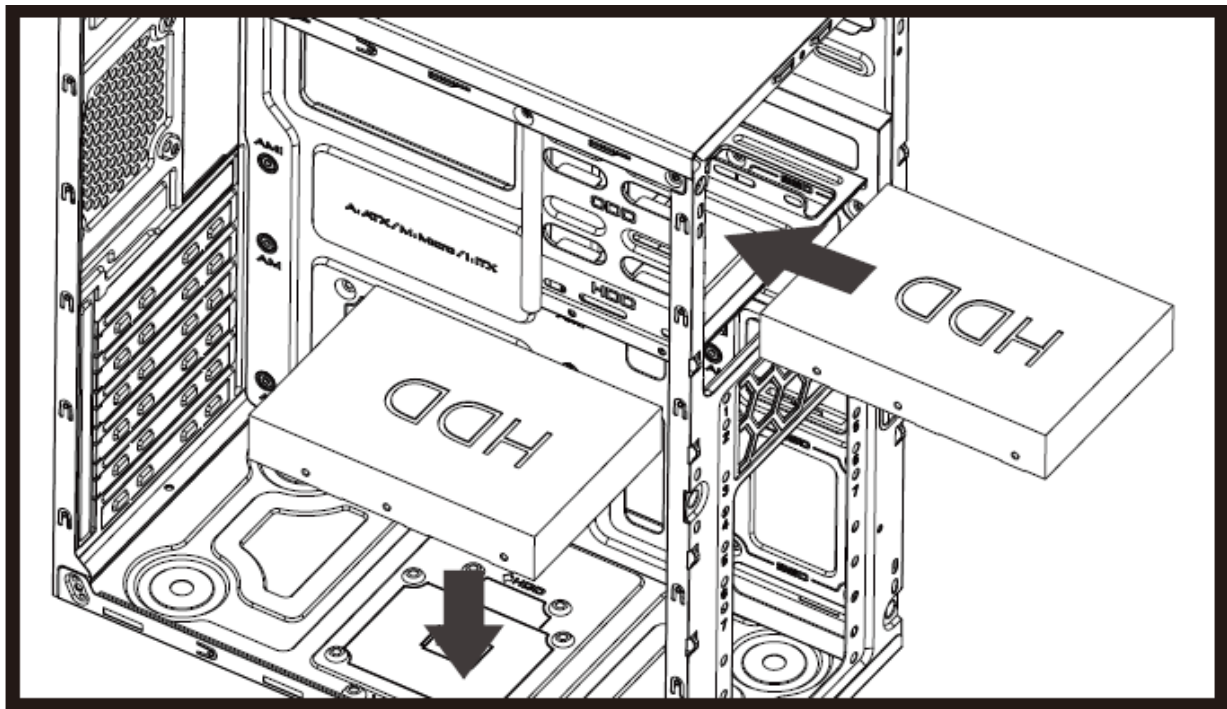

### Please note:

ODD installation depends upon if the front panel is with or without ODD position. If the front panel is without ODD position, then ignore it.

## HDD installation

Put 3.5" HDD in HDD bay as shown in the following illustration, align the screw holes, then fix HDD by screws.

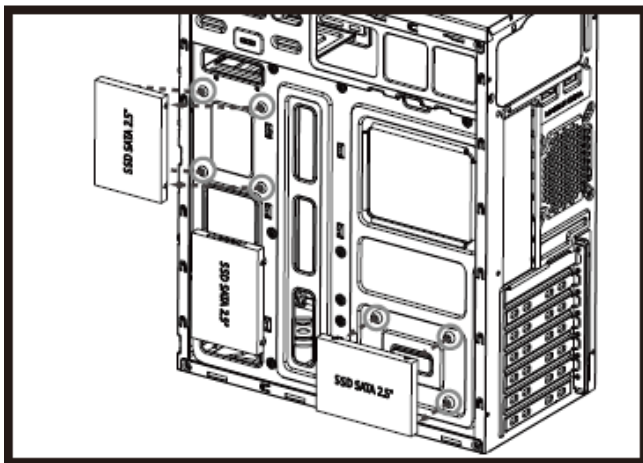

1 x3.5"HDD or 1 x2.5"SSD can be mounted on the bottom cover

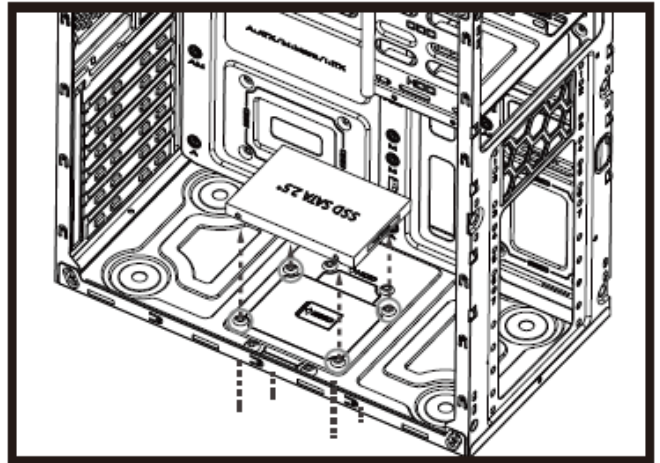

## SSD installation

Put 2.5" SSD on the SSD mounting positions as shown in the following illustration, then fix it by screws.

### ■ SSD installation (1)

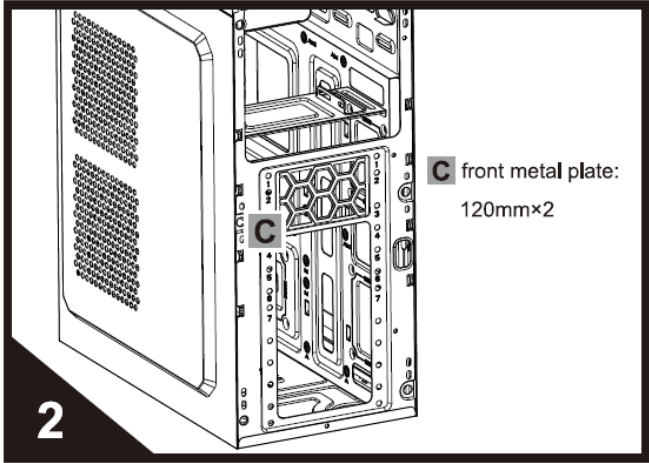

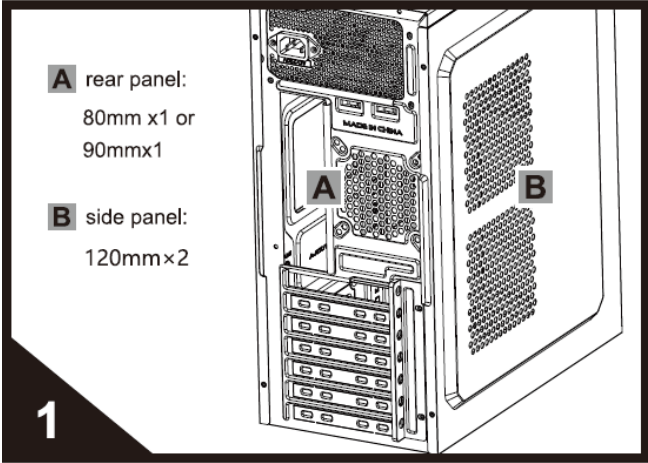

### ■ SSD installation(2)

3xSSD can be installed on the M/B bracket as shown in the above illustration 1 x3.5"HDD or 1 x2.5"SSD can be mounted on the bottom cover.

FAN positions available
