SC1 Standard Communication System
User Guide

“Hello!” – the SCHUBERTH SC1 lets you stay connected with everything important to you: your friends on your motorbike and those waiting for you at home. The navigation system provides directions and keeps you entertained while traveling to your destination. Have a great journey and stay connected!

We recommend you to read the operating instructions carefully in addition to the Quick Start Guide, in order to understand all the functions and the correct operation. To find the complete manual please use the smartphone app or go to:

1. SC1
2.  Button
3.  Button
4. Charging Port
5. Battery
6. Release Tool
7. USB charging cable

Notice

Attaching the product to the helmet is considered a modification to the helmet and may void your helmet's warranty or compromise your helmet's functionality.

This may entail risks during an accident, so be fully aware of this fact before using the product. Should you not accept this fact, you may return the product for a full refund.

In some regions, it is prohibited by law to ride motorcycles while wearing headsets or earbuds.

Therefore be certain you are aware of all relevant laws in the region where you are using the product and are sure that you comply with them.
