## Safety Instruction

This manual is an important part of your product. These instructions are designed to ensure your safety. Please read them carefully before use and keep them in a safe place for future consultation. The power supply unit must be set up in a dry location. This product must only be used for its intended purpose.

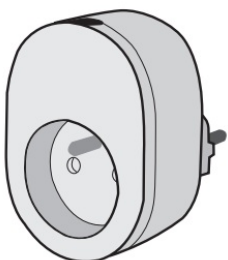

This product works with the iSCS Sentinel app only. The application is available for free on the PlayStore and the App Store. Application updates may be necessary, for example to fix bug, improve features, and benefit from a better user experience. You can enable or disable automatic updates for the iSCS Sentinel application in the PlayStore or App Store settings. The information concerning the reason for the update, its impact on the performance and the evolution of the functionalities of the product or application as well as the storage space used, are indicated, for each update, on the PlayStore or the App Store. In accordance with the regulations and the legal guarantee, the application availability and updates are guaranteed for a period of 2 years.

This manual may be amended as the application is updated. To ensure you have the latest version, we recommend you download it from our website [www.scs-sentinel.com](http://www.scs-sentinel.com)

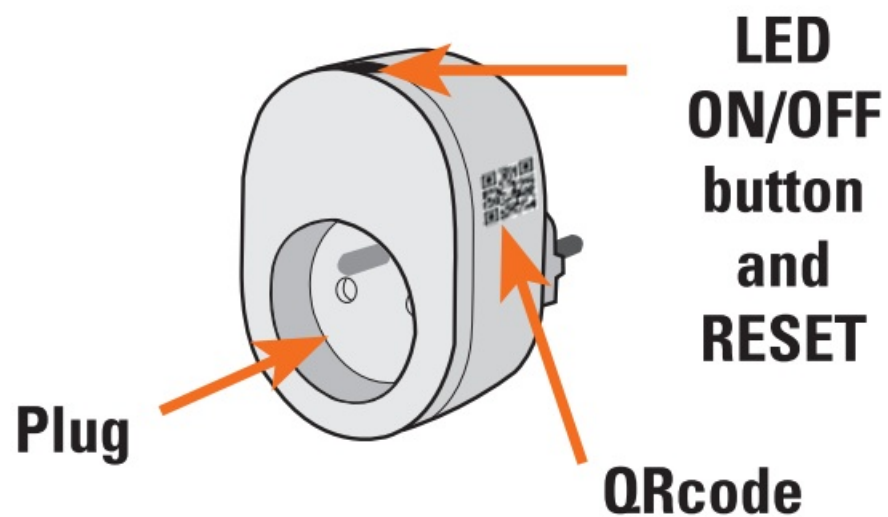

## Description

### Kit Contents

### Smart Plug

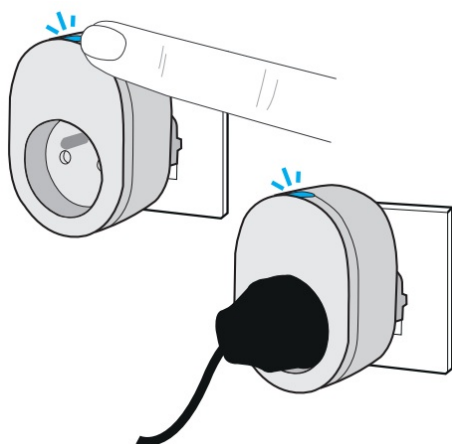

## Product Presentation

### Installation

1. Plug in your smart plug and press the button (the blue light will come on).
2. Plug in your light or other object you want to connect.
3. Download the iSCS Sentinel free app on your smartphone.

### Configuration

#### Installing The App

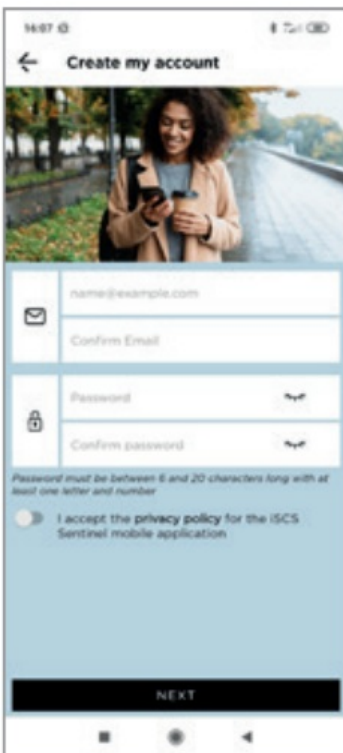

**iSCS Sentinel**

To download the app, go on to the App Store or Play Store on your smartphone. Search for “iSCS Sentinel”, then click on install.

Once the download is complete, open the app and click on create my account.

Enter your email address and password in the relevant boxes.

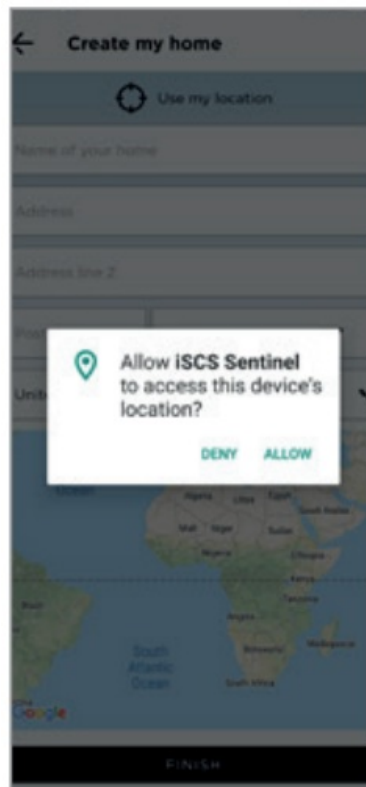

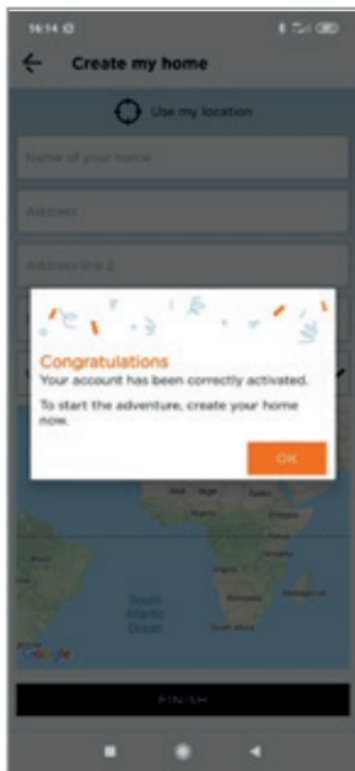

3.

**Please agree to the privacy policy before clicking next.**

**Click Next.**

**Enter the validation code you received by email. Then confirm the account.**

CLICK ON ALLOW

Enter all the information requested to create your home. Then click on finish.

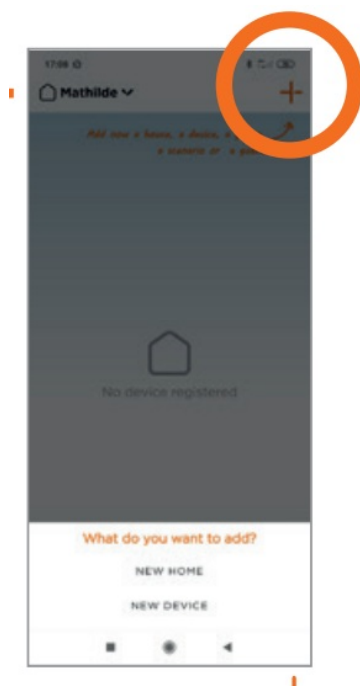

## Setting Up Your Plug

⚠ Some material may reduce the Wi-Fi range.

Plug in your smart plug close to your WF router for set-up. Your phone must be connected to the same Wi-Fi network as your smart plug.

Click on the  symbol and then New device to add the plug.

  
The network  
needs to be  
2.4 GHz to work.

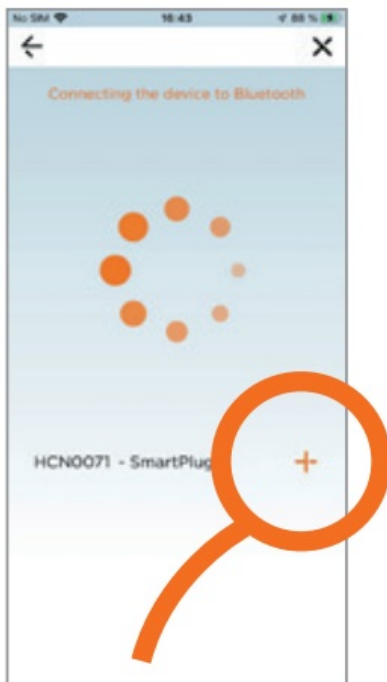

Enter your Wi-Fi password and scan the QR code on the plug or enter the code manually.

When the light starts to flash, click on Next. If the light does not flash, press and hold the Reset button for 5 seconds.

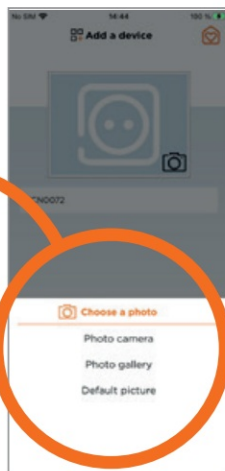

Click On The +

Add a profile picture from your camera, the gallery or select a picture by default (product visual or last motion capture).

**Enter a name for the smart plug.**

Add a profile picture from your camera, the gallery or select a picture by default (product visual or last motion capture).

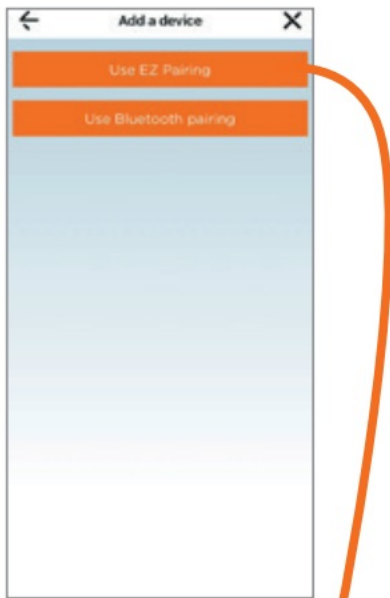

If the device fails to connect to Wi-Fi, an error page is displayed.

## Troubleshooting

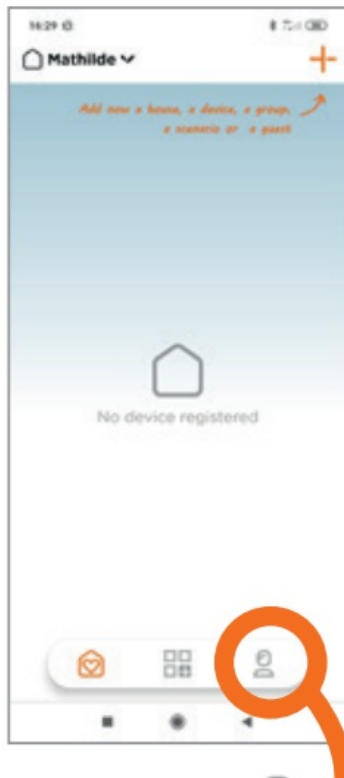

***Check these five points. Clicking on “repeat operation” takes you back to the second step.***

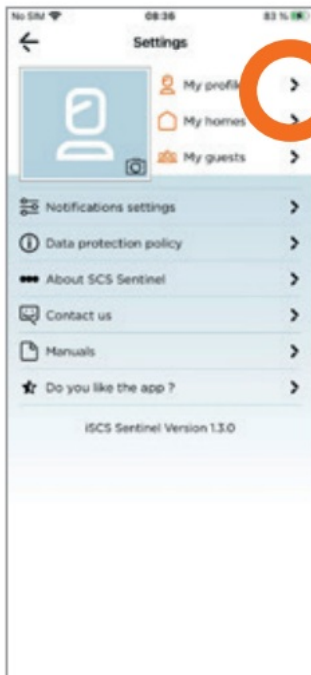

***Pairing via Wi-Fi***

## Setting

***Click on  to go to the app setting.***

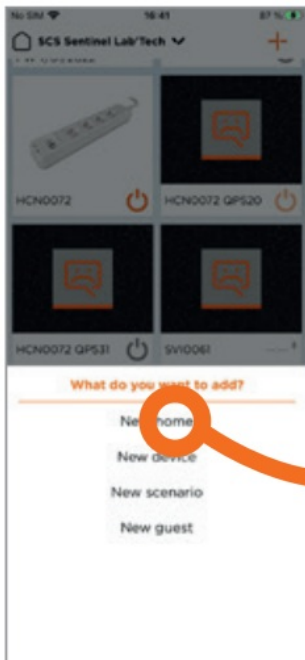

**View my profile:**  
If you want,  
you can edit  
your personal  
information.

**To add a home**

**Click on** +

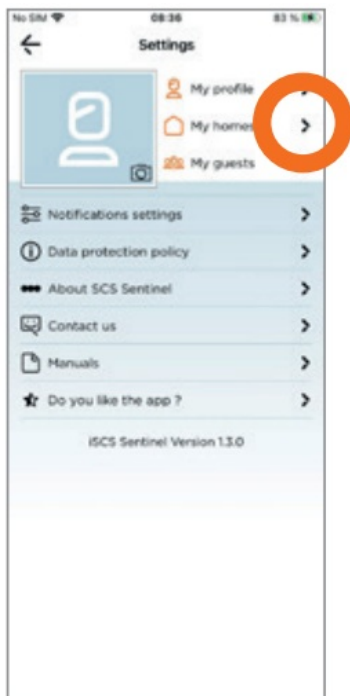

Create  
a new  
home.

3.

Create  
a new  
home.

*Fill in the fields and click on “FINISH”.*

**To remove a home**

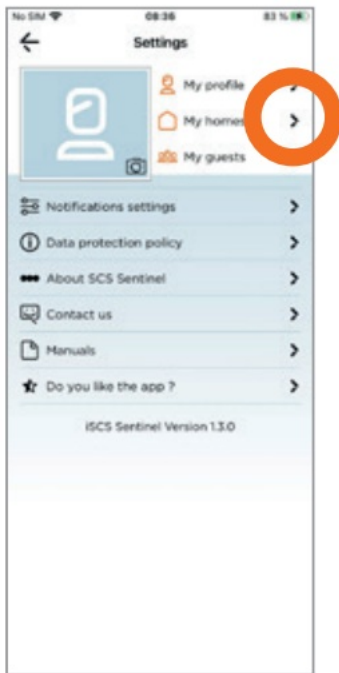

Click on 

Click on  to remove a home.

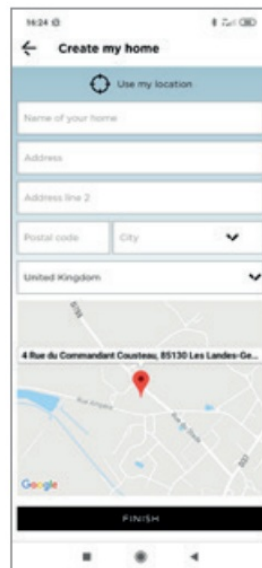

**To Edit a home**

Click on 

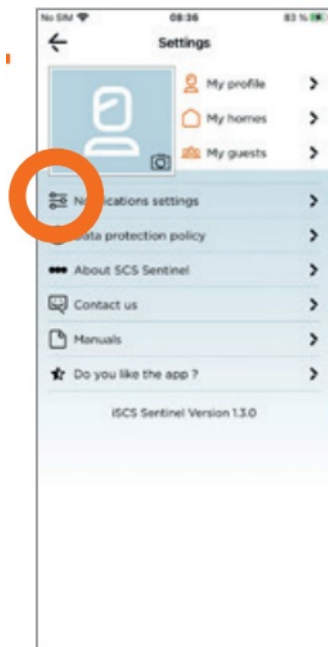

Edit the  
address.

## Notification Setting

Click on \$3 'to go to the notification settings

## WARNINGS

The product must be used only indoor. This equipment is intended for private consumer use only. Do not connect any device that may exceed the maximum ratings of this plug. Do not disassemble or repair the product. Do not use the device if repair or adjustment is required. If needed, it will require qualified staff. Keep matches, candles and flames away from the device. The appliance should not be exposed to dripping or splashing water. No objects filled with liquids, such as vases, should be placed near the appliance. The power supply plug must remain easily accessible. It is used as a disconnection device. Do not let children play with the product or with the packagings. Before cleaning, disconnect the product. Do not clean the appliance with abrasive or corrosive substances. Only use a soft cloth. Do not spray anything on the product.

Unused equipment must not be disposed of with normal household waste. The hazardous substances it may contain could be harmful to health and the environment. Use the special collection services provided by your local authorities or distributor.
