Name Of Parts

What You Need To Know

There are many different brands of cost effective commercial exit devices on the market. The vast majority of these devices are strictly mechanical. Today's market demands an economical commercial exit device with electric latch retraction. Not only does SDC's S4000 series of electrified commercial exit devices satisfy both market needs for a cost-effective exit device with ELR, but **the S4000 also comes standard with request to-exit (REX) monitoring**, enabling access control compatibility.

SDC's S4000 elevates itself as the premier device in the market for a low price without compromising an inch of its superior quality.

The S4000 with factory installed motorized electric latch retraction and REX makes application as easy as **Install – Power – Done.**

How Your Customer Benefits

- Factory Installed Motorized Electric Latch Retraction
- Electric Dogging to Hold the Latch Retracted
- Factory Installed Request-To-Exit (REX)
- Stainless Steel Construction – Corrosion Resistant
- Grade 1 Exit Device
- Compact Design for Commercial & Industrial Applications
- Rim and Surface Vertical Rods
- Trim Options Available
- Hollow Metal, Wood and Mineral Core Door Applications
