1. SAFETY

% Warning! ensure all Health and safety, local authority, and general workshop practice regulations are strictly adhered to when using tools.

1. DO NOT use tools if damaged or worn.
2. maintain the tools in good and clean condition for best and safest performance.
3. ensure all threads are clean and well lubricated.
4. Always check that puller is correctly assembled and is square with the workpiece.
5. ensure the nuts and bolts are tight on the jaw heads.
6. if vehicle is raised, ensure it is adequately supported with axle stands, ramps, etc. as appropriate.
7. Wear suitable clothing to avoid snagging. DO NOT wear jewellery. tie back long hair.
8. Wear approved eye protection. A full range of personal safety equipment is available from your sealey dealer.
9. Where possible shield workpiece with canvas or similar to provide protection against failed parts.
10. DO NOT heat puller jaws when heating a gear or bearing as this will affect the temper and, therefore, the strength of the material.
11. DO NOT hit workpiece with a hammer if workpiece has not moved with maximum puller force applied. use a larger capacity puller.
12. Account for all tools and parts being used and do not leave them in or on the vehicle. important Always refer to the vehicle manufacturers service instructions, or proprietary manual, to establish the correct procedure and data.

NOT: this tool will exert strong forces on the object being worked on and may damage some objects depending on force required.
