SEAVIEW ADAHALO3 Plate For Halo Open Array Radars

PARTS INCLUDED

TOOLS NEEDED

- Sudbury Elastomeric Marine
- Sealant is recommended. To
- purchase call 800-655-7922 or visit
- www.seaviewglobal.com.

INSTALLATION

1. Place the ADA-R1 drill template on top of the ADA-R1 Top Plate. Refer to the depiction of the drill template at

the end of this instruction booklet.

2. Mark the four #3 holes with a pen.

3. Drill the four holes you just marked.

4. Apply marine adhesive sealant to the lip in the center hole of the ADA-R1 Top Plate. Then route the cables through the grommet and insert the grommet into the ADA-R1 Top Plate.

5. Repeat the same process with the ADA-HALO-3 adapter plate.

6. Route the cables through the ADA-HALO-3 adapter plate and then mount the open array radar.

7. Using your own hardware secure the open array radar to the adapter plate. (Refer to the radar manufacturer installation instructions)

8. Mount the assembly to the ADA-R1 Top Plate.

9. Secure the assembly using the four 3/8" x 1 1/2" bolts and washers.

NOT to scale
