E7 Quartz 2 hour Immersion heater control

E7 Quartz 2 hr, is the equivalent of the Economy 7 with a 120-minute boost timer. A proven, reliable and accurate unit, the E7 Quartz 2hr is easy to install and set, providing a tankful of hot water to start each day utilising Economy 7 Off-peak rate overnight electricity. The manual boost timer provides extra hot water in the daytime, should it be needed.

E7 Quartz is the standard by which all other water heating controls are judged and is the all-time best seller in water heating controls.
