Mesh Intercom™

- Open Mesh™: communication within the same channel.
- Group Mesh™: communication within the same private group.
- For more information on Mesh Intercom, refer to the User's Guide.]

Mesh Intercom On

Mesh Intercom Off

Note: When Mesh Intercom is on, the Expand Mesh will automatically connect to nearby Expand Mesh users and the headset will be in Open Mesh (default: channel 1) initially

Open Mesh

Channel Setting (Default: channel 1) in Open Mesh

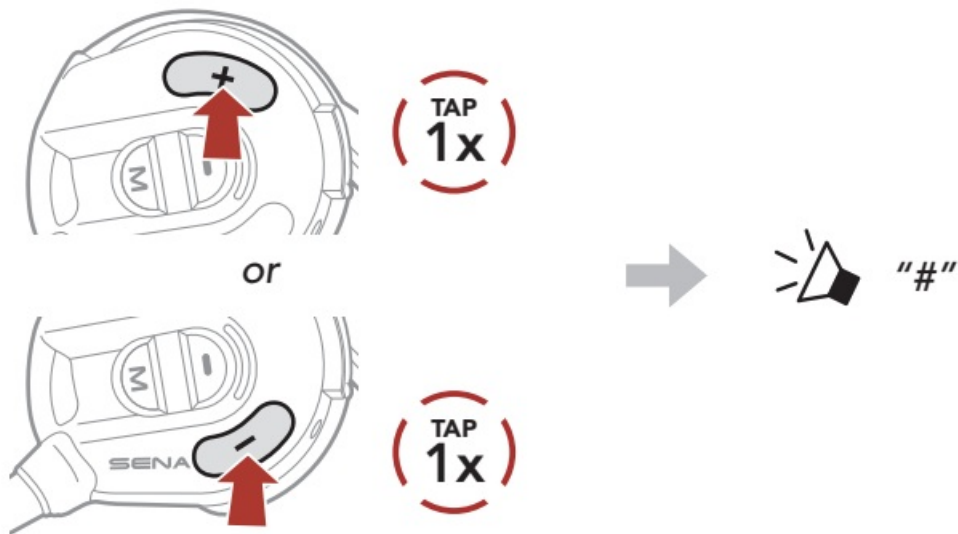

Using the Button

1. Enter into the Channel Setting.

2. Navigate between channels.

(1 → 2 → ... → 8 → 9 → Exit → 1 → ...)

3. Save the channel.

Using the Sena Outdoor App

You can select the channel through the Sena Outdoor App.

Group Mesh

Group Mesh is a closed group intercom function that allows users to join, leave, or rejoin a group intercom conversation without pairing each headset.

1. Creating a Group Mesh

Creating a Group Mesh requires two or more Open Mesh users.

1. Users (You, B, and C) enter into Mesh Grouping to create a Group Mesh.

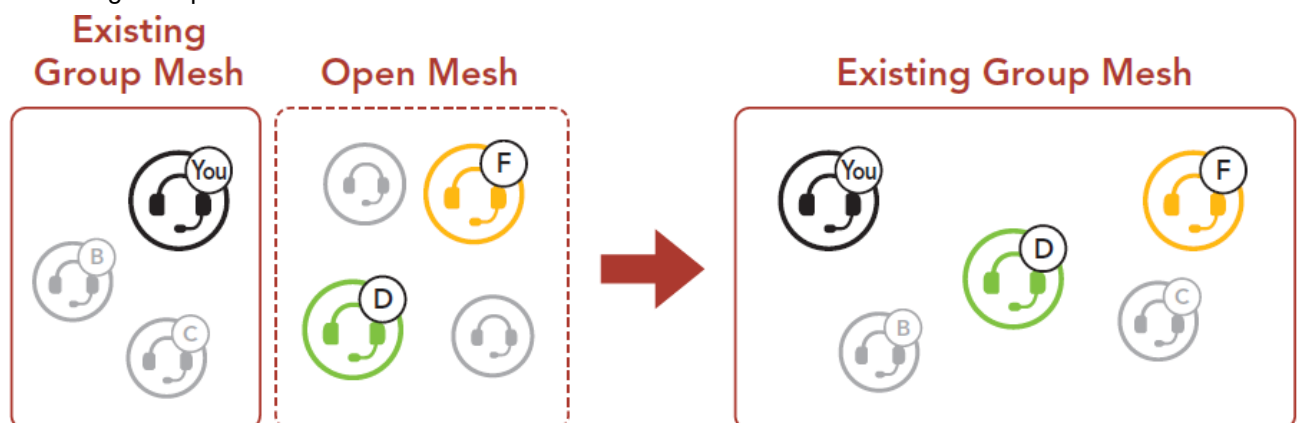

2. When Mesh Grouping is completed, the users (You, B and C) will hear a voice prompt on their headset as Open Mesh switches to Group Mesh.

2. Joining an Existing Group Mesh

One of the current users in an Existing Group Mesh can allow new users (one or more) in Open Mesh to join the Existing Group Mesh.

1. One (You) of the current users in the Existing Group Mesh and new users (D and F) in Open Mesh enter into Mesh Grouping to join the Existing Group Mesh.

2. When Mesh Grouping is completed, the new users (D and F) will hear a voice prompt on their headset as Open Mesh switches to Group Mesh.

Enable/Disable Mic (Default: Enable)

Users can enable/disable the microphone when communicating in a Mesh Intercom.

Reset Mesh

If a headset in an Open Mesh or Group Mesh resets the Mesh, it will automatically return to Open Mesh (default: channel 1).

Configuration Menu

Accessing the Configuration Menu

Navigating Between Menu Options

Execute Menu Options

Troubleshooting

Factory Reset

Fault Reset

Note: Fault Reset will not restore the headset to the factory default settings.
