SenseFlow SF101 Essential Oil Diffuser

- www.thesenseflow.com

Thank You for Choosing SenseFlow

This manual provides guidance on setting up, using, and maintaining your diffuser to ensure a long and enjoyable experience. Please read this manual before using the diffuser.

Safety Instructions

To ensure your safety and the proper use of this product, please strictly follow these warnings:

- Do not use the diffuser in damp or wet environments to avoid electrical short circuits or electric shocks.
- Do not place the diffuser on unstable surfaces to prevent tipping, which may cause essential oil leakage and electrical short circuits.
- Do not place the diffuser near high temperatures or open flames to prevent fire hazards.
- Keep the diffuser out of reach of children and pets to avoid accidents.
- Do not operate the diffuser without essential oil in the bottle to prevent damage to electrical components.
- Do not immerse any part of the diffuser in water or other liquids to avoid electric

shocks or product damage.

- Do not disassemble, repair, or modify the diffuser yourself, as unauthorized actions may cause safety hazards.
- Do not use unspecified or unknown essential oils to avoid allergic reactions or damage to the diffuser.
- If you notice abnormal heating, smoke, or strange odors from the diffuser, immediately disconnect the power and stop using it. Contact a professional for inspection.
- If any liquid enters the electrical part, stop using it immediately and disconnect the power to avoid electric shock risks.

Product Overview

1. Mist Nozzle
2. Air Intake
3. Plug
4. Mist Indicator Light
5. Mist Button
6. Essential Oil Bottle Insert
7. Essential Oil Bottle
8. Cotton Swab
9. Support Bracket (Optional)

Specifications

- Product Name: Aroma diffuser
- Model SF101
- Dimensions 112x112x288 mm / 4" x 4" x 11"
- Output Voltage DC12V
- Input Voltage AC 100- 240V
- Power 10W
- Essential Oil Capacity 30ml
- Mist Levels 4
- Night Light Yes

How to Use

Remove the Packaging

1. Carefully take out the diffuser, essential oil bottle and all accessories from the packaging.
2. Check all parts to ensure there is no damage.

Preparing the Essential Oil Bottle

1. Twist the cap counterclockwise to remove it from the essential oil bottle. Then remove the plastic stopper to open the bottle.

2. Insert the cotton swab into the essential oil bottle.

3. Align the cotton swab with the insertion point at the bottom of the diffuser, push the essential oil bottle up, and twist the bottle clockwise until you feel it is secure in place.

Installing the Diffuser

1. Insert the plug into a wall outlet.

2. Optionally, you can place the support bracket under the plug for better stability.

Selecting Mist Output

Repeatedly press the mist button

1. **First press:** Low mist setting. The diffuser sprays essential oil mist every 10 minutes. Only the left indicator light is on.
2. **Second press:** Medium mist setting. The diffuser sprays essential oil mist every 6 minutes. Only the middle indicator light is on.
3. **Third press:** High mist setting. The diffuser sprays essential oil mist every 2 minutes. Only the right indicator light is on.
4. **Fourth press:** Max mist setting. The diffuser sprays essential oil mist every minute. All indicator lights are on.

Turning Off the Night Light

The night light turns on automatically. Press the mist button twice to turn off the night light.

Maintenance and Cleaning

Cleaning the Diffuser

1. Turn off and unplug the diffuser before cleaning.
2. Remove the essential oil bottle from the diffuser.
3. Wipe the exterior of the diffuser with a damp cloth.
4. Ensure all parts are completely dry before reassembling.

Safety Warnings

1. Do not immerse: Never immerse the diffuser in water. This may damage electrical components and pose a safety hazard.
2. Avoid contact with water: Ensure the plug does not come into contact with water to prevent electric shock or device damage.
3. Always place upwards: Ensure the essential oil bottles and mist nozzles are facing upward to avoid an essential oil spill.

Maintenance Tips

1. Regular cleaning: Clean the diffuser regularly as recommended by the manufacturer to maintain optimal performance.
2. Proper placement: Place the essential oil bottle on a stable surface to avoid tipping.
3. Use clean water: Always use clean water and high-quality essential oils to prevent residue buildup.

Troubleshooting

If you encounter other issues or the problem persists, please contact customer support at: support@thesenseflow.com. We are always ready to help!

Warranty and Support

Warranty

- This product comes with a 3-year warranty from the date of purchase.
- The warranty covers defects in materials and workmanship under normal use.

- **Manufacturer/Importer:** Guangzhou Zhigan Yuandong Technology Co., Ltd.
- **Address:** Room 102, Building 2, No. 4, 3rd Street, Yinping Road, Shatou Street, Panyu District, Guangzhou, 510030

FCC STATEMENT

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment to an outlet on a different circuit from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

RF Exposure Statement

To maintain compliance with the FCC's RF Exposure guidelines, this equipment should be installed and operated with a minimum distance of 20cm the radiator your body. This device and its antenna(s) must not be co-located or operate in conjunction with any other antenna or transmitter

ISED Canada Statement:

This device contains licence-exempt transmitter (s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

1. This device may not cause interference and
2. This device must accept any interference, including interference that may cause undesired operation of the device.

Radiation Exposure: This equipment complies with Canada's radiation exposure limits set forth for an uncontrolled environment

RF Exposure Statement

To maintain compliance with IC's RF Exposure guidelines, this equipment should be installed and operated with a minimum distance of 20cm from your body. This device and its antenna(s) must not be co-located or operate in conjunction with any other antenna or transmitter.

FAQs

Common Issues

Issue: Diffuser will not start

Solutions

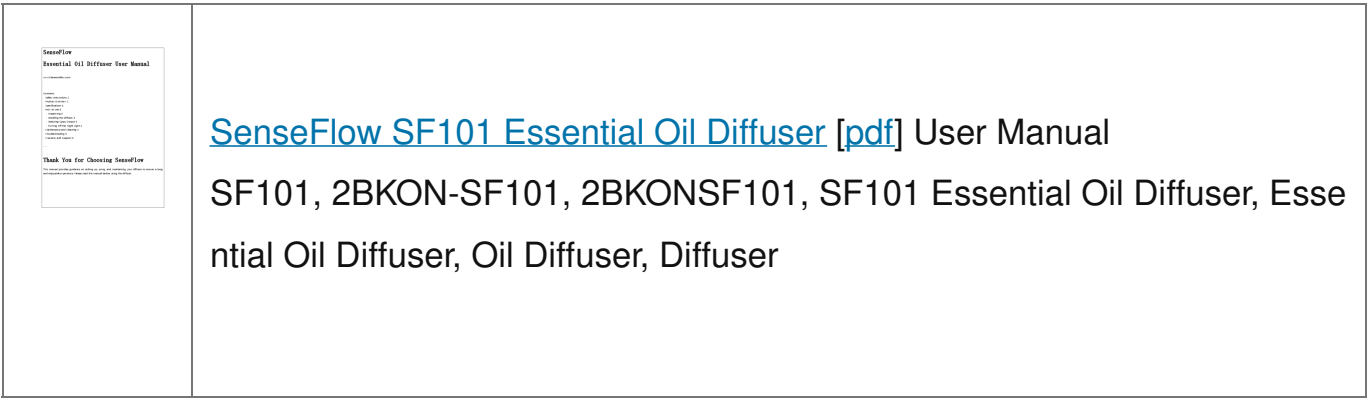

- Ensure the power plug is properly connected
- Check if the power outlet is functioning

Issue: No mist or reduced mist

Solutions

- New diffusers may take one minute for the cotton swab to fully soak in the essential oil. Allow a few minutes for the fragrance to start diffusing.
- Ensure there is enough essential oil in the bottle
