Package Content

- Bottom Board 1 PCS

- Glass Shelf 4 PCS

- Pole 16 PCS

- Screw 8 PCS

- Bolt 12 PCS

- Cushion 4 PCS

- Power Cord 1 PCS

- Power Adapter 1 PCS

- Remote 1 PCS

Assembly Steps

Assemble the Bottom Board

1. Holding the Bottom Board(A) upside-down, insert 4 Screws(D) through each of the 4 corner holes.
2. Insert 4 Poles(C) onto the exposed part of 4 screws and tighten with screwdriver.
3. Align the hole slot and attach Cushion (F) to the bottom of the base plate.
4. Screw 4 Bolts(E) into each hole of 4 corners.

Assemble 4 Glass Shelves

Please Note: Make sure the LED is facing down and the female receptor is on the right side.

1. Place Glass Shelf(B) onto the protruding bolts, then screw 4 Poles(C) onto protruding bolts tightly.
2. Assemble the middle glass shelves according to the previous method.
3. Place the top glass shelf onto poles and insert 4 Screws(D) through holes in the corners and tighten with screwdriver.

Connect Power

1. Plug in the Power Cord(G) into the LED Module.
2. Turn clockwise to connect the male and female connector and then plug the Power adapter (H) into outlet to get power.
3. You can use the Remote (I) or APP control to turn on the lamp.

Share the APP: Download the QR code for the same series of APP

FCC Warning

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
