Safety Directions

installing or using this product and keep this user manual for further reference.

1. The luminaires may only be installed by authorized and qualified technicians according to the valid regulations for electrical installation.
2. Maintenance of the luminaires is limited to their surfaces. During maintenance, no moisture can come into contact with any areas of the terminal connections or voltage control parts.
3. The electrical supply must be switched off at the outset, preferably using a switch in the distribution box, before any installation, maintenance, or repair work is undertaken.
4. Exterior light must not be installed during rain.
5. Take account of the minimal separation distance from other objects and the room required around the fitting.
6. If in any doubt, consult a professional, taking local installation requirements into account. Some countries stipulate that lighting may be installed only by registered installers.
7. Clamping screws in electrical connections must be adequately tightened. This is particularly the case with 12V low-voltage conductors.
8. When replacing a halogen lamp, wait for it to cool, for a minimum of 5 minutes.
9. Clean with a clean, dry cloth or brush, use no solvents or abrasives. Avoid dampness on all electrical components.
10. Take account of all available technical information.
11. Take note of the symbols when connecting wires:
 - N = Neutral

- L = Live

- = Earth

12. If the external flexible cable or cord of this luminaire is damaged, it shall be exclusively replaced by the manufacturer or his service agent or a similarly qualified person in order to avoid a hazard.
