SereneLife™

SereneLife SLCTLA40 Electronic Red Dot LED Pointer Pen

Launch Date: August 24, 2017

Price: \$29.99

Introduction

You can use the SereneLife SLCTLA40 Electronic Red Dot LED Pointer Pen for many things. It's made to bring you new technology and fun. Its bright red dot is great for business presentations or playing with your pet. This pointer pen is eco-friendly and easy to carry around because it has a built-in recharging battery and is small and light. Its ergonomic form makes it easy to hold, even for long periods. It's a useful and long-lasting tool because the light levels can be changed and the ABS material is strong. It works well for medium-sized cats and business settings and is great for use indoors. The automatic off-timer uses energy efficiently and keeps the battery alive longer. The SereneLife SLCTLA40 changes the way you can use technology, whether you're playing with your pet, giving a presentation, or just trying out new ideas. It's a great addition to your toolkit because of its modern look, basic pattern, and small size.

- **Theme:** Animals
- **Item Weight:** 7.84 ounces
- **Item Dimensions (L x W x H):** 5.32" x 3.51" x 5.04"
- **Unit Count:** 1 Count
- **Global Trade Identification Number:** 00842893100272
- **Model Name:** SLCTLA40

Package Includes

- 1 x SereneLife SLCTLA40 Electronic Red Dot LED Pointer Pen
- 1 x USB-C Charging Cable
- 1 x Instruction Manual

Features

1. A red dot with good visibility

An extremely bright red LED light on the SereneLife SLCTLA40 makes it easy to see even in bright rooms. It's a great way to improve training sessions, presentations, or games where pets can connect with you. The red dot is very easy to see, which makes it a very useful visual tool.

2. Battery That Can Be Charged

The pen is convenient and long-lasting because it has a lithium-ion battery built in. There is no need for throwaway batteries because it charge through a USB-C port. It can be used for a long time on a full charge, so it's always ready to go when you need it.

3. Small and Lightweight

The SereneLife SLCTLA40 is small enough to fit in your pocket or bag and is made to be portable. Because it's not heavy, it's easy to take and use, making it a useful tool for professionals or pet owners who are always on the go.

4. Design for Comfort

The pointer pen is made with a comfortable shape that lets you use it for long periods without getting tired. The form is made to fit a natural grip, so the user will be comfortable during long presentations or fun activities.

5. Brightness can be changed

This device has different brightness levels, so you can change how bright the red dot is to fit the situation. You can change the brightness to fit your needs, whether you're working in a dark room or a bright one.

6. Strong Construction

The SereneLife SLCTLA40 is made to last because it is made of high-quality ABS plastic. Because it is made to last, it can handle daily wear and tear and can be used often in a variety of settings.

7. Multiple Uses

The pen can be used for many things, from business meetings to training pets and having fun. People can use it in school, in the office, or as a fun toy for their pets to keep them busy and happy.

8. A large working area

The red dot LED pointer works well up to 100 feet away, so you can use it in a lot of different places. This longer range is especially helpful for big presentations or games where pets can connect.

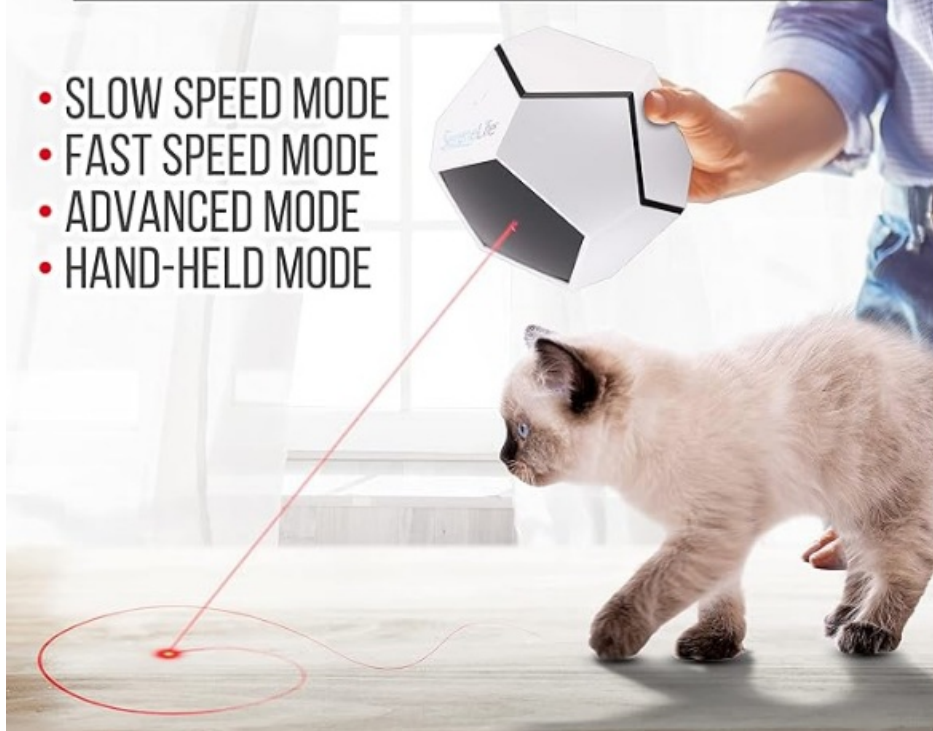

9. Playtime on Autopilot

The SereneLife SLCTLA40 is made to keep your pet entertained so you don't have to watch them all the time. Pets will stay busy and happy with the device's automatic play mode, which simulates a chase game.

4 MODES OF PLAY

CHANGE MODE TO KEEP PLAY INTERESTING

- SLOW SPEED MODE
- FAST SPEED MODE
- ADVANCED MODE
- HAND-HELD MODE

10. Flip for Floor or Wall

The pointer can be used on several different surfaces. To shine the dot on the floor, put it on a window sill or table. To shine the light on the walls, put it on the floor. This flexibility makes for a fun and changing place for pets to play.

11. Changing the speed of the circle

The device lets you change the speed choices. You can change the speed of the circle by tapping the button on top, or you can pause it to aim the dot in a certain direction. This feature gives your pets more ways to connect, which keeps them fully interested.

12. Path You Cannot Guess

The red dot moves in a random, unpredictable way that keeps pets interested and their minds working. This feature makes interactive play more fun by moving like prey. It's a great way for cats or dogs to get exercise and stimulate their senses.

13. Turn off the timer

The gadget has an automatic shut-off timer to save battery life. The pen turns off after a certain amount of time, so when your pet gets tired, it doesn't use any more energy.

14. Everyone is safe.

The SereneLife SLCTLA40 is made to keep you safe. The product is non-toxic and safe for all pets, giving your furry friends a fun and safe activity.

15. Small and easy to carry around

This pointer pen is great for traveling because it is small. It's easy to take with you anywhere to keep your pets entertained or use it for work.

Usage

For Presentations:

- Turn on the pen by pressing the power button.
- Aim the red dot at the desired point on the presentation screen or wall.
- Use the adjustable brightness feature for optimal visibility in various lighting conditions.

For Pet Training or Play:

- Activate the LED pointer and direct the red dot to engage your pet in chasing or interactive activities.
- Always supervise pets during play to ensure safety.

Entertainment and General Use:

- Use the red dot for creative activities or as a fun tool to entertain friends and family.

Care and Maintenance

- **Cleaning:** Use a soft, dry cloth to clean the pen. Avoid using abrasive materials or liquids.
- **Storage:** Store the pen in its protective case when not in use to prevent damage.
- **Battery Care:**
 - Fully charge the battery before first use.
 - Avoid overcharging to prolong battery life.
 - Charge the pen regularly to prevent the battery from draining completely.

Troubleshooting

The LED Pointer Won’t Turn On :

- Ensure the pen is charged. Connect it to a power source using the USB-C cable and charge for at least 2 hours.
- Check the power button for proper functionality.

Red Dot Visibility is Weak:

- Adjust the brightness setting to a higher level.
- Ensure the lens is clean and free from dust or debris.

Battery Drains Quickly:

- Ensure the pen is fully charged before use.
- Avoid leaving the pen powered on when not in use.

LED Pointer is Not Responsive:

- Check the USB-C cable for damage and replace it if necessary.
- Reset the device by turning it off and on again.

The Pen Feels Hot During Use:

- Stop using the pen immediately and let it cool down.
- Ensure the pen is not exposed to direct sunlight or high temperatures during operation.

Pros and Cons

Pros	Cons
Engages pets effectively	Requires batteries
Adjustable settings for personalized play	May not hold the attention of all pets
Compact and portable design	Automatic mode may need supervision
Easy setup and operation	Limited battery life

Warranty

The SereneLife SLCTLA40 comes with a **1-year warranty**, ensuring peace of mind against manufacturing defects.
