Information on electrical and electronic equipment

The following notice is aimed at private end users who use electrical or electronic devices.

1. Separate collection of old devices. Owners of old devices must collect them separately from unsorted municipal waste.

2. Batteries and rechargeable batteries Usually, used batteries and accumulators must be separated from the equipment before they are handed over to a collection point.
3. Option to return your old device. You can hand over your old appliances to options set up and offered by public waste disposal agencies to dispose of them properly.
4. Privacy Notice: In your own interest, please note that each end user is responsible for deleting the data on the old devices to be disposed of.
5. Meaning of the crossed-out dustbin symbol. The crossed-out wheellie bin symbol indicates that the appliance must not be disposed of with household waste at the end of its use.

Product the environment

The crossed-out wheeled bin symbol on batteries or accumulators means that they must not be disposed of with household waste at the end of their useful life. You are legally obliged to return old batteries and accumulators after use. You can do this for free at a retail store or at another collection point near you. Batteries may contain substances that are harmful to the environment and human health. The separate collection and recycling of old batteries and accumulators is intended to avoid negative effects on the environment and human health. Please avoid generating waste from old batteries. Please avoid littering public spaces by not leaving batteries or battery-containing electrical and electronic devices lying around. Please explore ways to recycle a battery instead of disposing of it.

After-sales

If you have a malfunction during use, please handle it according to the type of fault and contact us if necessary. Email: yyi-amz@foxmail.com
