Robot Setup

1. Set Up Dock + Landing Mat

- Remove protective film from robot and dock.
- Place dock in a spot with a strong Wi-Fi signal.

2. Attach Side Brush

Note: Side brush design may vary.

3. Place Robot on Dock

- Robot will turn on when properly placed on dock.
- Blue LED light on the dock indicates robot is charging.

4. Scan the QR code to download the SharkClean® app.

- Complete your robot setup process in the app and learn about mopping mode.
- To get the best cleaning performance from your robot, we recommend downloading the latest version of the SharkClean® app.

App Features

- Mapping
- Scheduling
- No-Go Zones
- Carpet Zones
- Spot Cleaning

What's Included

- Robot Dock

Charging dock for robot.

- Landing Mat

Maximize Your Robot Experience

Tips and tricks for getting the most out of your robot.

- To manually turn ON /OFF your robot, hold down the DOCK button for 6-8 seconds.
- Clear the area of cords and wires before each clean.
- Use mopping mode for daily maintenance and stuck-on messes.
- Only use Shark® VACMOPTM cleaning solution or water when mopping.
- Always place your robot on a level surface when performing maintenance.
- Clean brushroll and filter regularly.
