Charging Type	USB-C
Casing Material	ABS, PC
Cable Material	PVC
Cable Length	0.3m
Compatibility	Devices with Bluetooth audio capability
Supported Codecs	SBC, AAC

GETTING STARTED

CHARGING YOUR BLACK SHARK LUCIFER T4

For first-time use, connect the charging case (containing the earbuds) to a USB port via the charging cable and wait until your Lucifer T4 is fully charged. For subsequent use, the charging case and earbuds can be charged independently.

BATTERY INDICATOR FOR THE CHARGING CASE WHEN PLUGGED IN

	Status
  	Battery 0%-30%
  	Battery 31%-70%
  	Battery 71%-99%
  	Fully Charged

 Static  Flash  Dark

BATTERY INDICATOR FOR THE CHARGING CASE WHEN UNPLUGGED

	Status
	Battery 0%-10%
	Battery 11%-30%
	Battery 31%-70%
	Battery 71%-100%

BATTERY INDICATORS FOR THE CHARGING CASE WHEN CHARGING EARBUDS Battery indicators light up with a breathing lighting effect when the charging case is charging earbuds (except for the middle indicator). When the earbud on one side is fully charged, the indicator light on the corresponding side will light out.

PAIRING TO A MOBILE DEVICE

When connecting your Lucifer T4, remember to keep it within a meter (1m) of your mobile device.

1. Simply open the case to enter pairing mode.

You will hear 2 beep sounds while the earbuds are powered on and enter pairing mode. The indicators on the earbuds will remain white for 2 seconds. The master earbud's indicator will then flash green and white alternately while the indicator light on the other flashes white every 4 seconds.

- The first earbud to boot is the master earbud.

2. Enable Bluetooth on your mobile device and select "Black Shark Lucifer T 4" from the list of device found.
3. Wait for pairing to complete. You will hear 4 beep sounds when the earbuds have successfully paired and connected to your device. If the earbuds fail to connect to your audio source, the earbuds will stay in search mode for up to 3 minutes before powering off. If this happens, simply repeat the steps again to pair.
 - Once the earbuds have been paired, they will automatically try to connect to the paired mobile device each time the charging case is opened or the earbuds are powered on.

GAMING MODE

On the right earbud, triple tap to activate gaming mode. Once enabled, your earbuds will function at a low latency, giving you real-time audio feedback while gaming. Repeat the same gesture to disable gaming mode and activate music mode.

USING DIFFERENT SIZES OF EAR TIPS

To improve the wearing experience, please select an ear tip that provides the best, most secure fit.

POWER ON/OFF

To power off the device, simply return the earbuds to the charging case and close the case. The same can be done by holding both touch controls for 5 seconds. The earbuds will power back up when you open the case or hold both touch controls for 3 seconds.

USING THE LEFT/RIGHT EARBUD ONLY

Simply take the left/right earbud out only and connect it to your device.

RESET YOUR LUCIFER T4

Starting with the earbuds in the case:

1. Remove the earbuds from the charging case, and the earbuds will turn on. Hold both touch controls for 5 seconds to turn them off.
2. Hold both touch controls for 10 seconds. The earbuds will turn on, clear their pairing list, and turn off again.
3. Place both earbuds back in the charging case and close the case to reset.
4. Open the case again, your Lucifer T 4 will turn on and enter pairing mode.

TOUCH CONTROLS FOR EARBUDS

SAFETY INFORMATION

Using the earbuds at a high volume for a long time may cause permanent hearing loss. To reduce this risk, keep the volume at a safe and comfortable level.

Traffic Security

To reduce the risk of accidents, always fully pay attention while driving. Using a device while driving, even with a hands free kit, distracts you and can cause an accident. Follow local driving laws and regulations while using this device. Interference with Medical Equipment This device may cause medical equipment to malfunction. Therefore, follow all rules and regulations of hospitals and health care facilities. Do not use your device in prohibited areas. Some wireless devices may affect the performance of hearing aids and pacemakers. Consult your service provider for more information. Pacemaker manufacturers advise keeping a minimum distance of 15 cm between a mobile device and a pacemaker to prevent potential interference. It is recommended to hold the device opposite the pacemaker, and not to carry the device in your front pocket.

Battery

This product contains a lithium-ion battery. **WARNING!** There is a risk of explosion if the battery is replaced by an incorrect type. Do not attempt to remove, open, crush, puncture, short circuit, dispose of in fire or water, or expose the battery to temperatures higher than 40°C. Dispose of used batteries according to local regulations.

Battery Replacement

Your device's battery is built-in and non-removable. The battery can be replaced only by an authorized service partner, whose contact information can be found on the Warranty card. The operating temperature of the device is -10 to 55°C. Avoid environments that are dusty, damp, dirty, or have magnetic fields. Keep the device away from extended-period direct sunlight, extreme heat/cold, fire, microwave, or high-pressure containers. Such environments may damage your device or accessories.

DISPOSAL

Correctly dispose of this product. This icon indicates that this product should not be disposed with other household wastes throughout the EU. To prevent the environment or human health from being damaged due to uncontrolled waste disposal, recycle responsibly to promote the sustainable reuse of material resources. To safely recycle your device, use return and collection systems or contact the retailer from whom you purchase the device.
