Specifications

- **Product Dimensions:** 11.02 x 12.4 x 4.29
- **inches**: Item
- **Weight**: 9.04 pounds
- **ASIN**: B002RJKPDY
- **Item model number**: XG-F315XIs

What's in the Box

When you purchase the Sharp XG-F315X DLP XGA Projector, you can typically expect to find the following items in the box:

- Sharp XG-F315X Projector
- Remote Control
- VGA Cable
- Power Cable
- User Manual
- Warranty Information

Features

- **High-Resolution Projection:** The Sharp XG-F315X offers XGA (1024 x 768 pixels) native resolution, ensuring crisp and clear image quality for presentations, videos, and images.
- **DLP Technology:** This projector utilizes Digital Light Processing (DLP) technology, known for its sharp and vibrant color reproduction, as well as fast response times for smooth video playback.
- **Bright and Clear Images:** With a high brightness rating (typically [insert lumens] lumens), it can project clear and visible images even in well-lit environments or large rooms.
- **Contrast Enhancement:** The projector typically offers a high contrast ratio, delivering deep blacks and bright whites for enhanced image depth and detail.
- **Long Lamp Life:** The lamp in the XG-F315X has an extended lifespan, reducing the need for frequent lamp replacements, which can save you on maintenance costs.
- **Flexible Connectivity:** It comes equipped with a variety of input options, including VGA, HDMI, Composite, USB, and Audio In/Out, making it compatible with a wide range of devices such as laptops, gaming consoles, DVD players, and more.
- **Adjustable Projection Size:** The projector allows you to customize the screen size to suit your specific needs, whether it's for a small meeting room or a larger home theater setup.
- **Remote Control:** The included remote control provides convenient operation, allowing you to adjust settings and control the projector from a distance.
- **Keystone Correction:** Keystone adjustment helps correct image distortion caused by the angle of projection, ensuring a perfectly aligned and rectangular image.
- **Quiet Operation:** The XG-F315X is designed for quiet operation, making it suitable for presentations and home theater setups where noise levels need to be minimized.
- **Versatile Applications:** Whether you're using it for business presentations, educational purposes, or home

entertainment, this projector is versatile and adaptable to various scenarios.

- **User-Friendly Menu:** It features an easy-to-navigate menu system, making it simple to adjust settings and configure the projector to your preferences.
