- Recycle or dispose of battery according to federal, state, and local laws.

FCC STATEMENT

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. this device must accept any interference received, including interference that may cause undesired operation.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

WARNING: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

To reduce the risk of electric shock, always unplug this appliance from the electrical outlet immediately after using and before cleaning.

PRINTED IN CHINA.

THE FUTURE OF RECOVERY

Plug the USB-C charging cable into the charging port on the massager and then plug the other end into the included USB-C adapter

The LED indicators will light up during charging. When the full circle is lit, charging is complete (charging takes approx. 3 hours). Charge completely before use. Do not use the massager while it is charging.

Select and plug the desired attachment into the front of the massager.
Power off the massager before changing attachments. Twist and pull to remove attachments. (See back page for interchangeable attachment guide.)

To power on the massager, press and hold the power button for 1 – 2 seconds. The display will light up and the massager will be in standby mode.

Quick press the power button again to toggle through the 6 massage intensity levels.

Press and hold the power button to turn off the massager

Note: The Power Boost Flex is equipped with advanced anti-stall technology. To avoid motor stalling, massage speed will automatically increase when extra pressure is applied.

To change the massage angle, press and hold the angle adjustment button. While holding the button, adjust the massage arm to the desired angle. Release the button and make sure the massage arm is locked in place. The massage arm can be locked into 5 positions ranging from 0° to 120°.

Use the massager for up to 60 seconds per body area. Enjoy your massage for up to 10 minutes. Do not use on neck, head or any hard or bony areas of the body.
