Thank you for purchasing a Sheffield Labs product. All Sheffield Labs products are carefully engineered and factory tested for durability under normal conditions. We develop our products for simple installation. Follow our instructions to help you easily install your Sheffield Labs LED desk lamp.

SAVE THESE INSTRUCTIONS AND READ CAREFULLY BEFORE USE

For Customer Care, production operation information or problem resolution, call toll free 1-800-936-3213

IMPORTANT SAFETY INSTRUCTIONS

A WARNING: TO REDUCE THE RISK OF FIRE, ELECTRIC SHOCK, OR INJURY TO PERSONS TURN THE LAMP OFF AND WAIT UNTIL LAMP AND ADAPTER ARE COOL BEFORE

A WARNING: TO PREVENT ELECTRIC SHOCK, MAKE SURE THE LAMP IS NOT PLUGGED IN UNTIL ALL STEPS ARE COMPLETE. HANDLING

- The LED lamp head (A) might get hot after several hours of continuous use. DO NOT place your hands directly on LED light panel
- Never use with an extension cord unless the plug can be fully inserted into the receptacles in the extension cord.

- Do not alter the plug.
- The lamp head included with this unit cannot be replaced by the consumer.
- Do not place flammable material near or over the lamp.
- Ensure the lamp is not installed next to any air vents and is not in any moist or damp areas.
- INDOOR USE ONLY

NOTE: The important safety instructions appearing in this manual are not meant to cover all possible conditions and situations that may occur. It must be understood that common sense, caution, and care must be used with any electrical product.

CAUTION: Any change or modification to this product not expressly recognized by Enchanté Living voids Enchanté's responsibility for proper function of product.

INSTRUCTIONS

NOTE: THIS UNIT IS FULLY ASSEMBLED

1. Remove lamp from packing, placing lamp base flat on a steady surface.
2. Connect power connector (6) into power adapter input (H) at the rear-bottom of the lamp.
3. Plug the power adapter (F) into a standard household 120V AC outlet.

NOTE: Only use with the supplied power adapter to avoid damage or risk of fire.

4. Tap the touch sensor (E) to power on the light. The lamp will default to the lowest brightness setting. Quick taps will toggle through all three brightness levels and a fourth tap will power the light off.

5. Wireless Charging:

Center your device on the Qi wireless charging pad (C) and a red indicator light next to the touch sensor (E) will

indicate charging. If the red indicator light begins to flash, your device may not be centered on the charger.

Once

the indicator light turns green, charging is complete.

The 'O' symbol is a trademark of the Wireless Power Consortium. AW mobile devices with integrated wireless charging support "O".

FCC PART 15

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that the interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

- Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
 - this device may not cause harmful interference, and
 - this device must accept any interference received, including interference that may cause undesired operation
- This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
