SHEIN GW018 Smart Gateway Multi Mode Gateway Smart Home Hub

Product Specifications

- **Product name:** Smart Gateway
- **Adapter output:** 5V 1A
- **Working temperature:** Not specified
- **Wireless technology:** ZigBee3.0, Bluetooth5.0
- **Dimensions:** 49 x 49 x 13mm
- **Net weight:** 33g

Product Description

The Smart Gateway is a mini Zigbee Gateway that includes a highly integrated Wi-Fi module, low power-consuming ZigBee module, and PCBA. It can be connected to the Smart Life app for device adding, reset, third-party control, and ZigBee group control, meeting smart home requirements.

Product Usage Instructions

Preparation For Use

1. In the App Store or Google Play, search for Smart Life or scan the QR code on the manual to download and install the smart App.
2. Open the Wi-Fi of your phone, click on the + in the upper right corner, and select Gateway.
3. The gateway to be added will automatically appear, please follow the instructions in the App for setup.

FAQ

Q: What do I do if I encounter interference with the device?

A: If interference occurs, ensure the device is not placed near other electronic devices that may cause signal interference. Additionally, try moving the device to a different location to minimize interference.

Smart Gateway

Product instruction manual

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation.

Attention that changes or modification not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This product has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This product generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this product does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment should be installed and operated with a minimum distance 20cm between the radiator and your body

This device and its antenna(s) must not be co-located or operation in conjunction with any other antenna or transmitter

Product Specifications

Product name	Smart Gateway
Adapter output	5V \equiv 1A
Working temperature	-10°C~55°C
