## Shenzhen Aidimi Technology

### Shenzhen Aidimi Technology ADM01 Night Eif Multi Functional Charging Box

### OVERVIEW

①+②+③+④+⑤

## FOREIGN OBJECT DETECTION

## HOW TO USE?

## ACCESSORIES

## PRODUCT

Can charge up to 5 devices simultaneously with total 60W output power, Fast wireless charging compatible with Qi devices. All-in-one charging station to provide a clean desk charging solution.

## SPECIFICATION

- **MODEL:** ADMOI
- **INPUT:** 12V-SA
- **WIRELESS CHARGER:** 15W
- **USB-A1:** 5V=3.6A, 9V= 2.5A, 12V=2A (24W MAX)
- **USB- A2:** 5V=3.6A, 9V= 2.5A, 12V= 2A (24W MAX)
- **USB- C1:** 5V=3.6A, 9V= 2.5A, 12V=2.5A (30W MAX)
- **USB- C2:** 5V=3.6A, 9V= 2.5A, 12V=2.5A (30W MAX)

## NOTES ON WIRELESS CHARGING

- Please confirm whether your mobile phone has wireless charging function before use;
- Check whether the phone deviates from the wireless inductive charging area of the charger;
- Whether a non-metallic protective case is used for charging mobile phones, and the thickness of the protective case is recommended not to exceed 4mm; When metal objects touch the charging area, the charger will automatically identify and provide power off protection;
- When the device is fully charged, disconnect it from charging in time to avoid a long cycle of charging, which may lead to continuous heating of the device and charger;
- It is recommended to stop running the background software when charging the phone
- When the temperature of the charger is too high, it will automatically start the protection. Please unplug the power supply first and use it after the charger recovers the temperature.

## Q&A:

- **Q: Why is there heating in the charging of wireless charging inductive products?**
  - A: During the charging process, there will be a certain loss of magnetoelectric conversion, which will be converted into heat, causing the mobile phone and charger to generate heat. which is a normal phenomenon.

## FCC Warning statement

**This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:**

1. This device may not cause harmful interference, and
  2. This device must accept any interference received, including interference that may cause undesired operation.
- Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.
  - This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.
  - If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the

following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

**FCC RF exposure statement:**

The equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance between 20cm the radiator your body.

**MODEL:** ADMO1
