Specifications

Power input	100-240V~50/60HZ
Drying power	200W
Disinfection power	10W
Noise	50dB One meter distance
Surface temperature	55°C Shell surface
Waterproof level	IPX3
Networking mode	WIFI Optional configuration

Bearing	Single hook bearing
Material	PC+ABS
Size	470×87.5×60mm

Name and content of harmful substances

Parts name	Harmful substances					
	Pb	Hg	Cd	Cr VI	PBB	PBDE

Plastic parts	○	○	○	○	○	○
Circuit components	×	○	○	○	○	○
Data line	○	○	○	○	○	○

This form is prepared in accordance with SJ / T11364.

○ : It means that the content of the toxic and harmful substance in all homogeneous materials of the part is below the limit specified in GB / T26572.

×: it means that the content of the toxic and harmful substance in at least one homogeneous material of the part exceeds the limit requirements specified in GB / T26572.

Attention

1. The installation height of the product shall be 1 meter or more from the ground. It shall be used indoors to avoid water drenching;

FCC Warning Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and
(2) this device must accept any interference received, including interference that may cause undesired operation.

RF Exposure Statement

To maintain compliance with FCC's RF Exposure guidelines, This equipment should be installed and operated with minimum distance of 20cm the radiator your body. This device and its antenna(s) must not be co-located or operation in conjunction with any other antenna or transmitter.
