What is in the box?

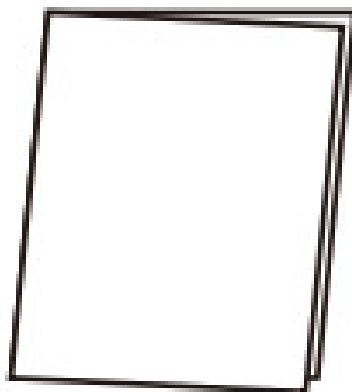

1. SW Qi Charging pad

2. A 3-ft micro-USB

3. User Manual to the USB charging cable

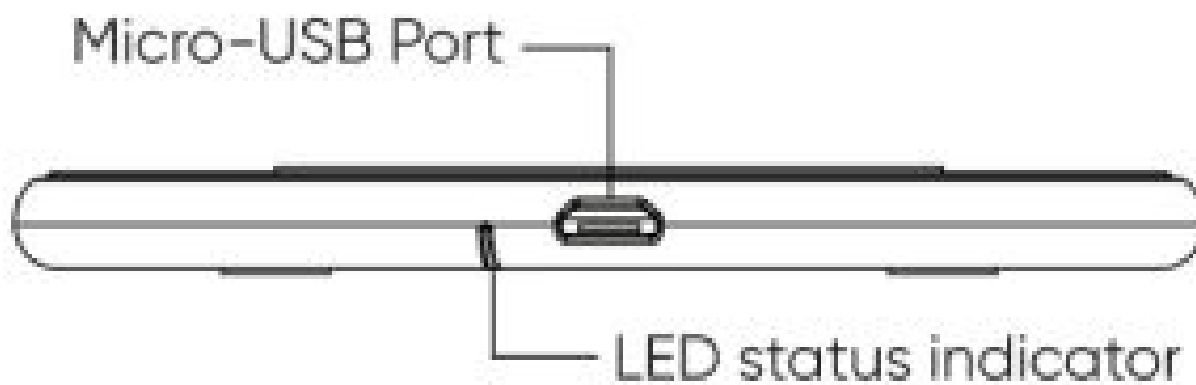

Get to know your 5W Qi wireless charging pad

Wireless Charging Pad	
Input	Micro USB, DC 5V/2A
Output	5W
Dimension	88 X 8mm

Compatibility

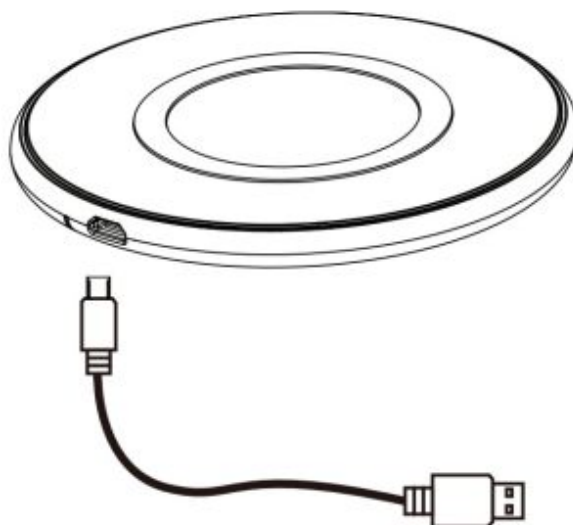

1. Qi-enabled devices up to 5W
2. Any Qi-compatible smartphones

LED Indicator	Status
The blue light on for 3 seconds	Connected to power
Off	Stand by for charging
The blue light on continuously	Charging device
Blue light (flashing)	Foreign object detected (Remove it before charging)

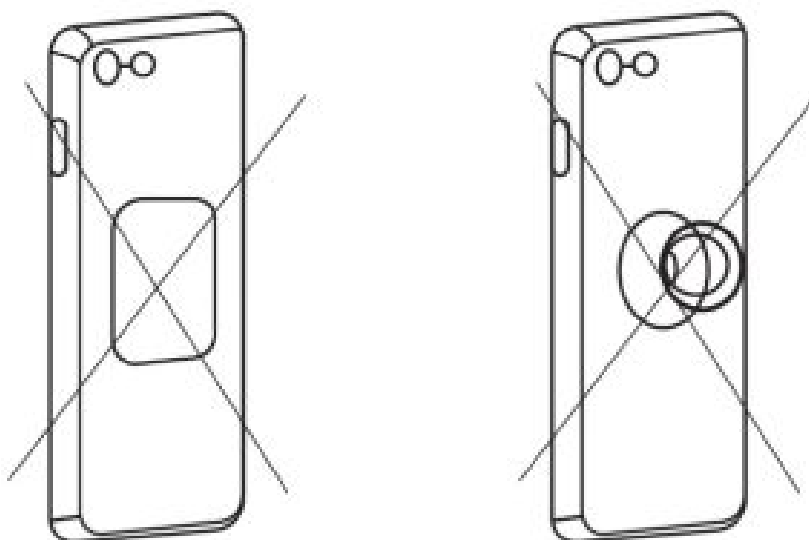

How to charge your devices.

1. Connect the Micro-USB power/charging cable to the Micro USB port on your charging Pad
2. Connect charging cable with charging pad to any 5V/2A minimum power supply for charging

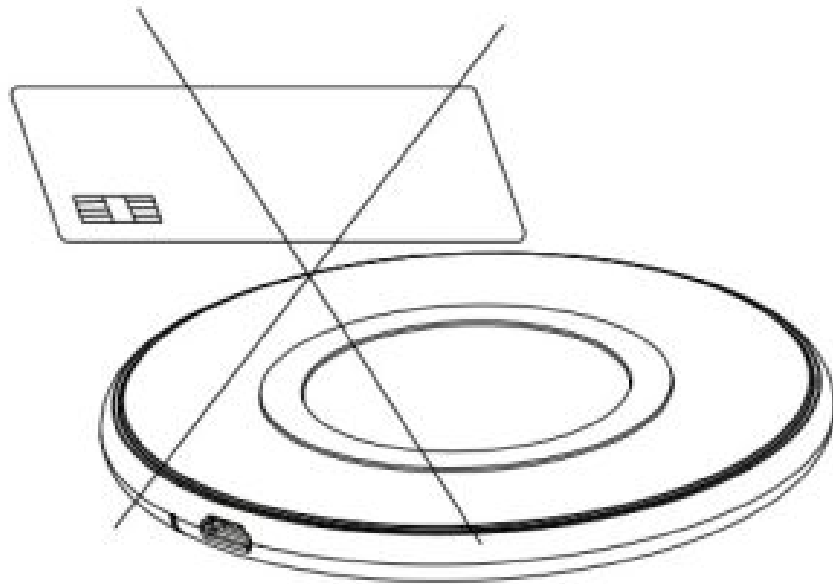

- Begin to charge
- Remove any foreign object (if any)

Example: Magnet or holder

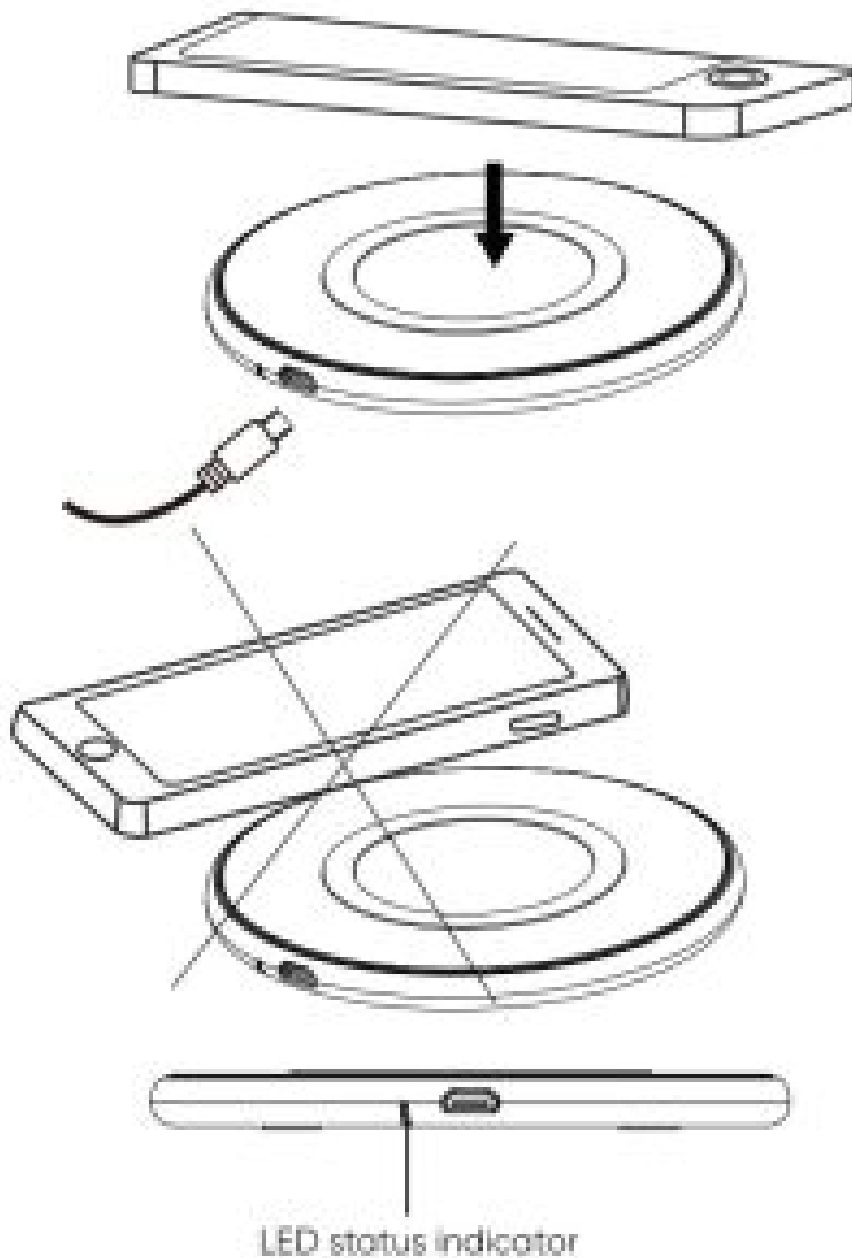

If there is any foreign object detected, the LED indicator will be flashing.

**Thick protective case $\geq 5\text{mm}$ or a case includes a magnet or metallic material, may not allow proper charging function.

Do not place any credit card on the charging device.

Place your smartphone or any Qi-enabled device on the center of the charging pad

The LED indicator will be on continuously during charging.

Caution

Avoid dropping

Do disassemble

No metal objects between devices and wireless charging pad

A thick protective case $\geq 5\text{mm}$ or a case that includes a magnet or metallic material, may not allow proper charging function.

Keep wireless charging pad away from any liquids or moisture

The maximum ambient temperature during the use of this product must not exceed 45°C . Do not place the device in fire or other excessively hot environments.

Only use a dry cloth or brush to clean this product. Do not use if visible defects are observed on the wireless charging pad.

Recommended using a 5V/2.4A or 5V/ 3.1A wall charger for proper function. If the wall adapter is less than 5V/2A charger may malfunction.

Warning

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment

FCC Statements

This device complies with Part 15 of the FCC Rules Operation is subject to the following two conditions

1. This device may not cause harmful interference, and
2. This device must accept any interference received including interference that may cause undesired operation

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna

Increase the separation between the equipment and receiver

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected Consult the dealer or an experienced radio/TV technician for help

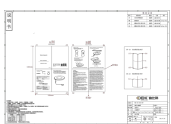

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20cm between the radiator and your body. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
