SHENZHEN

Shenzhen Electron Technology M108 Android Tablet

ATTENTION

1. Before using the tablet, please read the manual of the tablet carefully, and operate it according to the requirements and specifications in the manual.
2. Use the charger that comes with the original machine to charge, do not replace other chargers casually. If the charger is damaged, replace it with a new regular charger (current-voltage is 5V/2A).
3. When the tablet prompts for charging during use (the power is generally about 15%), it should be charged in time.
4. The duration of use should not exceed 3-4 hours. It is best not to use it while charging. (The body is in a state of constant heat for a long time, which may easily lead to the degradation of hardware performance, or accelerate the aging and damage of hardware).
5. When the tablet encounters a power failure during charging, you should unplug the tablet first.
6. Other items should not be placed on the tablet to avoid damage to the screen.
7. When the tablet is not in use, it should be placed on a stable desktop to avoid damage to the body due to accidental falls.
8. The tablet screen is afraid of squeezing and collision, please handle it with care. In addition, do not use fingernails or capacitive pens during use. Generally light touch, not heavy pressure.
9. When cleaning the tablet, do not directly rinse it with water, as the tablet that is not waterproof may be useless after washing.
10. The built-in electronic components of the tablet are afraid of moisture and water and must be kept away from high temperature, humidity, and dust. Please keep it in a dry place and avoid direct sunlight.

3. Set the micro SD card as portable storage by selecting use for portable storage. Enter micro SD card storage to move files between the card and tablet.

TROUBLESHOOTING

Q1. The tablet can not be turned on

- Reboot your tablet after charging for 30 minutes
- Press the power button to see if the tablet is in Sleep Mode
- Press and hold the power button for 7 seconds to turn off the tablet, then turn on it
- Press the reset hole with a pin to reset the tablet

Q2. The tablet can not be charged

- Charge the device for at least 30 minutes, in case the battery was completely drained
- Make sure the USB cable is properly plugged into the charging port
- Try another compatible USB cable and adapter

Q3. Error message occurs during operation

- Uninstall the app displaying the error message, then download and install again
- Press the reset hole with a pin to reset the tablet

Q4. The tablet cannot be detected by the computer

- Make sure the tablet is powered on
- Try another USB cable
- Try another USB port on the computer
- Instead of Charge this device, choose Transfer files or transfer photos (PTP) when connecting the tablet to the computer.

Q5. The tablet cannot connect to the Wi-Fi

- Make sure the Wi-Fi on your tablet is powered on
- Make sure you input the correct password
- Reboot the router
- Make sure there is no filter setting or device connection limitation in the settings of the router
- Forget the current W-, reset the router, and connect to the network again

Q6. The storage space of the tablet is not enough

- Uninstall the apps you don't use
- Clear the app cache regularly
- Insert a micro SD card to expand the storage

FCC STATEMENT

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation.

Warning:

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

RF warning statement:

The device has been evaluated to meet general RF exposure requirements. The device can be used in portable exposure conditions without restriction.

This product complies with the essential requirements of European safety regulations and has passed the product safety conformity assessment procedure. It also has a manufacturer's declaration of conformity to ensure that every product delivered to the customer is safe.
