## Connection and Pairing
1. **Connect to a PC**

   Connect eMeet Adapter A300 to one of the PC's USB ports.

   To re-pair the headset to USB dongle, please download eMeetlink application for settings.

2. **Pair a smart phone**

   1. Slide and hold the On/Off switch to the Bluetooth position until the LED flashes blue and voice guidance is heard.

2. Select eMeet Gemini HS100 from the list of available Bluetooth devices on the smart phone.

## Power On/Off

Slide the On/Off switch to the On or Off position to power the headset on or off.

## Intelligent Wearing Detection

The headset utilizes embedded sensors to perform different operations based on whether or not the user is wearing it.

### Auto Pause
Take off the headset when listening to music, playing music will be paused automatically.
Put the headset back on, music will be resumed automatically.
When there is an incoming call, wear the headset, call will be answered automatically.

### Auto-mute of Microphone
During a call, the microphone will be automatically muted if you take off the headset. When you put the headset back on, the microphone will be automatically unmuted.

### Enable/Disable Intelligent Wearing Detection
Download eMeetlink to Enable/Disable Intelligent Wearing Detection.

## Enable/Disable Ambient Noise

When ambient noise is enabled, you will hear ambient noise, and the speaker and microphone will be muted when you are on a call or listening to music.

## Operational Status Indicator

During a call, the operational status indicator will turn blue automatically.
To manually turn the operational status indicator on/off, press Volume+ and the Multi-function button at the same time.

## Mute/Unmute Microphone

When using the headset during a call, rotate the microphone to mute/unmute it.

## Multiple Call Handling

The headset can answer and handle multiple calls simultaneously.

| Status | Action | Function |
|---|---|---|
| New incoming call when a call is in progress | Press the Multi-function button | Answer incoming call and keep the current call active |
| Two calls are answered, with one held and one active | Press the Multi-function button | Switch between held call and active call |
| New incoming call when a call is ongoing | Ho ld the Multi-function button | Reject incom ing call |

**Voice Guidance**

Voice guidance are announcements that will guide you through set up, or will give you headphone status updates (e.g. connection and battery status).
By default, the voice guidance function is enabled. You may download eMeetlink to disable this function.

## Reset

Resetting the headset clears the list of paired devices and resets all settings. Hold Volume+ and Volume- at the same time for 1 Os to restart the headset.

**Auto Shutdown**

When the headset is powered on, but not being worn, they will automatically shutdown after 8 hours to conserve battery. To turn off this function, please download eMeetlink for settings.

## Download Application

Download the eMeetlink PC desktop app for software updates and other custom settings.

## Maintenance

- Store the headset in the accompanying pouch.
- To avoid shortened battery life and battery drainage, do not store the headset in hot or cold places (such as in an enclosed vehicle during summer or winter).
- The operating temperature of the headset is between -20 ° C and 45 ° C.
- Do not leave the headset unused and uncharged for extended periods. Charge the headset at least once every three months.
