Product parameter

Name:		Wireless game controller
Model:		HD-6500
	Support device:	N-Switch/Win7 and above/Android/iOS/MAC OS
Size/weight:		155*105*56mm/200g
Battery parameters:		capacity:650mAh/Input:DC5V/1A/Working current:25-35mA
Connection method:		Bluetooth/Wireless/Wire
USB type:		USB Type-c
Battery life:		≈12 hours
Special function:		Custom the ML&MR button/ D-pad and the left joystick function interchange/Auto turbo

Packaging and accessories

		
Controller*1	data cable*1	2.4G adapter*1 Not a default accessory

Common problem

Q: What should I do if I cannot connect?

A: Please turn off the controller and follow the user manual again. If it doesn't work, please poke the reset hole on the back of the controller and try again.

Q: Why can't I operate after connecting?

A: Please make sure you connect according to the correct mode. If the model is correct, please refer to the question-answer below

Q: What should I do if some games cannot be played on the N-Switch?

A: Some games on the N-Switch do not support a pro controller, you need to change a game to operate

Q: What should I do if the reconnection interface pops up suddenly when playing an N-Switch game?

A: This problem may be that your Joycon joystick drifts, or you accidentally pressed the buttons on the Joycon

Q: What should I do if mobile games cannot be controlled?

A: Whether it is an Android or an Apple game, the game itself needs to support the controller function to operate, please download the game that supports the controller

Q: Why can't my computer game be used?

A: 1. If it is a windows XP system, please upgrade to win7 and above, and check whether the computer-related controller driver is installed normally

2. Please make sure that the game supports the controller function

3. Please try to restart the computer and reconnect

Precautions

1. This product is not suitable for children 3 years old and below
2. Please do not put this product in a high temperature or high humidity environment
3. Do not try to disassemble this product, so as not to cause unnecessary damage to the product
4. This product has a built-in battery, please do not throw it away with domestic garbage
5. Do not charge the product near fire sources or other heat sources
6. Non-professionals should not disassemble this product, otherwise, after-sales service will not be provided

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
